

■ English Session Program

Special Lecture 3

Friday, May 31 13:30~14:10 Room 1 (PAMIR International Convention Center 3F HOKUSHIN)

Interventional EUS

Digestive Health Institute, Center for Advanced Endoscopy, Research and Education (CARE), Orlando Health
Moderator Oita University

Robert Holtbrook Hawes
Seigo Kitano

Invited Lecture 1

Thursday, May 30 10:40~11:10 Room4 (PAMIR International Convention Center 3F SUIJUN)

Interventional endoscopy in acute pancreatitis (AP)

Gastroenterology & Hepatology, Mayo Clinic, Rochester, MN, USA
Moderator Shinjuku Mitsui Bldg. Clinic

Santhi Swaroop Vege
Kyoko Shimizu

Invited Lecture 2

Thursday, May 30 10:40~11:10 Room 5 (PAMIR International Convention Center 3F KOUN)

Career Paths for Female Endoscopists in Thailand

Thai Association for Gastrointestinal Endoscopy, Faculty of Medicine Siriraj Hospital, Mahidol University
Moderator Department of Gastroenterology, Fukushima Medical University

Nonthalee Pausawasdi
Hiromasa Ohira

Invited Lecture 3

Thursday, May 30 10:30~11:00 Room11 (GRAND PRINCE HOTEL SHIN TAKANAWA 3F TENPYO)

Artificial intelligence for endoscopy

Renmin Hospital of Wuhan University
Moderator Department of Gastroenterology, Jichi Medical University Saitama Medical Center

Honggang Yu
Hirotsato Mashima

Invited Lecture 4

Thursday, May 30 13:40~14:10 Room 3 (PAMIR International Convention Center 3F HAKUJUN)

Quality in Upper Endoscopy

Gastroenterology and Hepatology, University of Colorado School of Medicine Azschutz Medical Campus
Moderator Department of Surgery, Keio University School of Medicine

Jennifer Christie
Yuko Kitagawa

Invited Lecture 5

Thursday, May 30 13:40~14:10 Room12 (GRAND PRINCE HOTEL SHIN TAKANAWA 3F HEIAN)

Managing Acute Variceal Bleeding - From A to Z

Gastroenterology and Hepatology, Emek Medical Center
 Moderator Department of Human Immunology and Nutrition Science, Kyoto Prefectural University of Medicine

Mark Gralnek
 Yuji Naito

Invited Lecture 6

Friday, May 31 14:20~14:50 Room 2 (PAMIR International Convention Center 3F KEIUN)

How to Write an English Paper: What do Editors Want?

Gastroenterology, Medical College of Wisconsin
 Moderator Niigata Seirou Hospital

Lyndon V. Hernandez
 Hideyuki Hiraishi

Invited Lecture 7

Friday, May 31 14:20~14:50 Room 3 (PAMIR International Convention Center 3F HAKUJUN)

ERCP and related procedures

Gangnam Severance Hospital, Yonsei University
 Moderator Miyagi Medical Check-up Plaza

DongKi Lee
 Naotaka Fujita

Invited Lecture 8

Saturday, June 1 10:40~11:10 Room 4 (PAMIR International Convention Center 3F SUJUN)

Charting Excellence in Quality - Taiwan's Journey in Elevating National Standard of Colonoscopy

Department of Internal Medicine, National Taiwan University Hospital
 Moderator Department of Coloproctology, Aizu Medical Center Fukushima Medical University

Han-Mo Chiu
 Kazutomo Togashi

Asian International Joint Symposium - with the 23rd JGES-KSGE 1

Technical innovation in endoscopic treatment of pancreatobiliary-malignant tumors

Thursday, May 30 8:40 ~ 9:40 Room12 (GRAND PRINCE HOTEL SHIN TAKANAWA 3F HEIAN)

Moderator	Second Department of Internal Medicine, Wakayama Medical University Inha University Hospital	Masayuki Kitano Don Haeng Lee
IS01-1.	Transpapillary biliary drainage Department of Gastroenterology, Graduate School of Medicine, Juntendo University	Hiroyuki Isayama
IS01-2.	Tips and tricks in EUS-guided biliary drainage The Chinese University of Hong Kong & Hong Kong Sanatorium Hospital	Anthony YB Teoh
IS01-3.	Enteroscopy-assisted biliary drainage Department of Internal Medicine, Chonnam National University Medical School	Chang Hwan Park
IS01-4.	Duodenoscopy-guided tumor ablation Department of Gastroenterology, Aichi Medical University, Aichi, Japan	Tadahisa Inoue
IS01-5.	EUS-guided tumor ablation Division of Gastroenterology, Asan Medical Center, Ulsan University College of Medicine	Taejun Song

Asian International Joint Symposium - with the 23rd JGES-KSGE 2

Technical innovation in endoscopic treatment of UGI-malignant tumors

Thursday, May 30 9 : 50 ~ 10 : 50 Room12 (GRAND PRINCE HOTEL SHIN TAKANAWA 3F HEIAN)

Moderator	Department of Gastrointestinal Oncology, Osaka Internatinal Cancer Institute Korea University Guro Hospital, Korea University College of Medicine	Noriya Uedo Jong-Jae Park
IS02-1.	Endoscopic submucosal dissection for upper GI cancer Gastroenterology, Hanyang University Seoul Hospital	Hang Lak Lee
IS02-2.	Underwater endoscopic mucosal resection for upper GI tumor Department of Gastroenterology and Hepatology, NHO Osaka National Hospital, Osaka, Japan	Shunsuke Yamamoto
IS02-3.	Photodynamic therapy for esophageal cancer Department of Gastroenterology and Endoscopy, National Cancer Center Hospital East	Tomonori Yano
IS02-4.	Endoscopic full thickness resection for upper GI tumor Department of Surgery, Faculty of Medicine, The Chinese University of Hong Kong	Philip Chiu
IS02-5.	Endoscopic Resection and Laparoscopic Lymph Node Dissection for Early Gastric Cancer Beyond Conventional Endoscopic Treatment Indications : A 10-Year Outcome Study Digestive Disease Center, CHA University Gangnam medical centers	Joo Young Cho

The 29th JGES-ESGE Joint Symposium

Differences in endoscopic management of colorectal neoplasia

Thursday, May 30 14:10 ~ 15:40 Room12 (GRAND PRINCE HOTEL SHIN TAKANAWA 3F HEIAN)

Moderator	President, JA Onomichi General Hospital Gastroenterology and Hepatology, Emek Medical Center	Shinji Tanaka Ian Mark Gralnek
-----------	---	-----------------------------------

- | | | |
|---------|--|---------------------|
| IS03-1. | Evidence and Indication of Cold snare polypectomy -European perspective
Gastroenterology and Hepatology, Emek Medical Center | Ian Mark Gralnek |
| IS03-2. | Evidence and Indication of Cold snare polypectomy -Japanese perspective-
Division of Gastroenterology, Department of Medicine, Showa University School of Medicine | Kazuya Inoki |
| IS03-3. | Differences in endoscopic management of colorectal neoplasia - European Current Topics in EMR
Department of Gastroenterology, University Hospital Augsburg | Helmut Messmann |
| IS03-4. | Japanese current status and topics in colorectal EMR
Division of Research and Development for Minimally Invasive Treatment, Cancer Center, Keio University School of Medicine, Tokyo, Japan | Noriko Matsuura |
| IS03-5. | Advanced endoscopic resection in Europe (FTRD)
Gastroenterology and Hepatology, AmsterdamUMC | Barbara Bastiaansen |
| IS03-6. | Advanced endoscopic resection for colorectal tumor
Division of Gastroenterology, Mie Prefectural Shima Hospital | Tatsuma Nomura |

The 22nd JGES-ASGE Joint Symposium

Endoscopic treatment for duodenal tumors (SNADET, Vater tumors and NET)

Friday, May 31 14 : 20 ~ 15 : 50 Room11 (GRAND PRINCE HOTEL SHIN TAKANAWA 3F TENPYO)

	Moderator Cancer Center, Keio University School of Medicine Gastroenterology and Hepatology, University of Colorado School of Medicine Aschutz Medical Campus	Naohisa Yahagi Jennifer Christie
IS04-1.	Endoscopic treatment for superficial non-ampullary duodenal epithelial tumors: the Japan perspective Molecular Gastroenterology and Hepatology, Kyoto Prefectural University of Medicine	Osamu Dohi
IS04-2.	The Role of Cold Snare Resection of Duodenal Adenomas-The Future? Center for Advanced Endoscopy Research and Education, Orlando Health Digestive Health Institute	Udayakumar Navaneethan
IS04-3.	Endoscopic treatment for duodenal neuroendocrine tumors Division of Endoscopy and Endoscopic Surgery, The University of Tokyo Hospital, Tokyo, Japan	Naomi Kakushima
IS04-4.	Endoscopic management of ampullary adenomas Department of Gastroenterology and Hepatology, Queens Medical Center, University of Hawaii	Larissa L.A. Fujii-Lau
IS04-5.	Expanding the indication of endoscopic papillectomy for ampullary carcinoma Department of Gastroenterology and Hepatology Tokyo Medical University, Tokyo, Japan	Kenjiro Yamamoto

The 16th JGES-CSDE Joint Symposium

Current status of early detection for digestive neoplasms (including AI technology)

Friday, May 31 15 : 50 ~ 17 : 20 Room11 (GRAND PRINCE HOTEL SHIN TAKANAWA 3F TENPYO)

Moderator	<p>Endoscopy Division, National Cancer Center Hospital Department of Medicine, Division of Gastroenterology, Jichi Medical University Gastroenterology Department, Chinese PLA General Hospital Depart. of Gastroenterology, Peking Union Medical College Hospital Department of Gastroenterology, Saitama Medical University International Medical Center Cancer Hospital Chinese Academy of Medical Sciences Department of Gastroenterology, Kyoto Second Red Cross Hospital Gastroenterology, Chinese PLA General Hospital</p>	<p>Yutaka Saito Hironori Yamamoto Enqiang Linghu Aiming Yang Shomei Ryozaawa Guiqi Wang Kiyohito Tanaka Ningli Chai</p>
IS05-1.	<p>Deep learning for Colonoscopy -Development and Performance Verification studies- Endoscopy Division, National Cancer Center Hospital, Tokyo, Japan</p>	Masayoshi Yamada
IS05-2.	<p>Computer-aided diagnosis and detection in colonoscopy Digestive Disease Center, Showa University Northern Yokohama Hospital</p>	Masashi Misawa
IS05-3.	<p>Artificial intelligence applications for rapid on-line evaluation (ROLE) of endoscopic ultrasound-guided fine-needle aspiration (EUS-FNA) of pancreatic solid tumors Endoscopy Center, Peking University First Hospital, Beijing 100034, China</p>	Long Rong
IS05-4.	<p>AI & ERCP: Exploring the Digestive Frontier —Strides or Just Mest Department of Endoscope, General Hospital of Northern Theater Command, Shenyang, Liaoning, China</p>	Zhuo Yang
IS05-5.	<p>Current status of artificial intelligence for the diagnosis of pancreatic diseases using EUS images Department of Gastroenterology, Aichi Cancer Center Hospital, Aichi, Japan</p>	Takamichi Kuwahara
IS05-6.	<p>AI in biliopancreatic endoscopic ultrasonography Endoscopy Center, The First Affiliated Hospital of Sun Yat-sen University</p>	Zhen Ding
IS05-7.	<p>Artificial Intelligence Quantifying Endoscopic Severity of Ulcerative Coli- tis in Gradation Scale Center for Diagnostic and Therapeutic Endoscopy, School of Medicine, Keio University, Tokyo, Japan</p>	Kaoru Takabayashi
IS05-8.	<p>Application of artificial intelligence to classify anatomic site in esopha- gogastroduodenoscopy images <small>The Key Laboratory of Carcinogenesis and Translational Research (Ministry of Education), Department of Endoscopy, Peking University Cancer Hospital & Institute, Beijing, China</small></p>	Qi Wu

Special Program 1-1

First presentation in English at the congress 1

Thursday, May 30 9 : 00 ~ 10 : 00 Room9 (PAMIR International Convention Center 1F KYOKKO)

<p>Moderator Division of Endoscopy, Tokyo Women's Medical University Yachiyo Medical Center University of Fukui, Faculty of Medical Sciences Second Department of Internal Medicine</p>	<p>Takayoshi Nishino Yasunari Nakamoto</p>
<p>SP01-1-1 Two cases of EUS-guided hepaticogastrostomy and gastrointestinal stent for patients with afferent loop syndrome Division of Gastroenterology and Hepatology, Department of Internal Medicine, Nihon University School of Medicine</p>	<p>Yoshitomo Ishikawa</p>
<p>SP01-1-2 A case of diffuse large B-cell lymphoma of the liver with obstructive jaundice; the diagnosis could not be made by biopsy under ERCP and peroral cholangioscopy Department of Gastroenterology, Dokkyo Medical University, Tokyo, Japan</p>	<p>Tomoya Sakamoto</p>
<p>SP01-1-3 Impact of endoscopic ultrasound-guided tissue acquisition on prognosis and peritoneal lavage cytology in resectable or borderline resectable pancreatic ductal adenocarcinoma. Department of Gastroenterology and Hepatology, Kansai Medical University, Hirakata, Japan</p>	<p>Motonobu Maruo</p>
<p>SP01-1-4 Clinical utility of EUS-FNA in the diagnosis of gallbladder cancer Third Department of Internal medicine, University of Toyama</p>	<p>Jun Matsuno</p>
<p>SP01-1-5 Don't Discard the Syringe with Backflow Blood during EUS-FNB: A Hidden Treasure of Quality Specimens Department of Gastroenterology, Teikyo University Mizonokuchi, Kanagawa Japankuchi</p>	<p>Ayako Watanabe</p>
<p>SP01-1-General Comment</p>	<p>Department of Surgery, Jichi Medical University Naohiro Sata</p>

Special Program 1-2

First presentation in English at the congress 2

Thursday, May 30 10 : 00 ~ 11 : 00 Room9 (PAMIR International Convention Center 1F KYOKKO)

Moderator	Department of Gastroenterology, Osaka Metropolitan University Division of Gastroenterology and Hepatology, Department of Internal Medicine, Tokai University School of Medicine	Yasuhiro Fujiwara Hidekazu Suzuki
SP01-2-1. Laparoscopy-Assisted Endoscopic Removal of a Denture Impacted in the Esophagus: A Case Report	Department of Surgery, Takeda General Hospital	Daichi Nitta
SP01-2-2. Peroral endoscopic myotomy for jackhammer esophagus	Department of Gastroenterology, Fukushima Medical University	Hiroyuki Suzuki
SP01-2-3. Search of predictors to require endoscopic removal of food residue in esophagus before POEM	Gastroenterology and Hematology, Graduate School of Medicine, Hirosaki University, Aomori, Japan	Masatoshi Kaizuka
SP01-2-4. The relationship between gastric hyperacidity and endoscopic findings of the Kyoto Classification of Gastritis	Department of Gastroenterology, Oita Red Cross Hospital	Hidetoshi Akiyama
SP01-2-General Comment	Division of General Internal Medicine, Kawasaki Medical School General Medical Center	Ken Haruma

Special Program 1-3

First presentation in English at the congress 3

Friday, May 31 9 : 00 ~ 10 : 00 Room8 (PAMIR International Convention Center 1F ZUIKO)

Moderator	Department of Advanced Endoscopy, Fujita Health University School of Medicine Institute of Health and Society, University of Oslo / Digestive Disease Center, Showa University Northern Yokohama Hospital	Naoki Ohmiya Yuichi Mori
SP01-3-1. Hanging polypectomy for colonic pedunculated polyp	Department of Gastroenterology and Hepatology, Sapporo Medical University School of Medicine, Sapporo	Kotaro Akita
SP01-3-2. New traction method in ESD for large colorectal lesions; Roll-Up Method	Department of Gastrointestinal Endoscopy, NTT Medical Center Tokyo, Tokyo, Japan	Toshifumi Iida
SP01-3-3. Use of the endoscopic hand suturing for treatment of refractory bleeding after rectal ESD: a case report	Department of Gastroenterology, Takeda General Hospital, Fukushima, Japan	Yuta Mizuno
SP01-3-4. A case of disseminated carcinomatosis of the bone marrow from post-colonoscopy colorectal cancer	Department of Gastroenterology, Fukushima Medical University School of Medicine	Tomoaki Mochimaru
SP01-3-5. Which is a better predictor for lymph node metastasis in T1 colorectal cancer: highest-grade or predominant differentiation?	Showa University Northern Yokohama Hospital	Osamu Shiina
SP01-3-General Comment	Gastrointestinal Center, Sano Hospital	Yasushi Sano

Special Program 1-4

First presentation in English at the congress 4

Friday, May 31 10 : 00 ~ 11 : 00 Room8 (PAMIR International Convention Center 1F ZUIKO)

Moderator	Department of Medicine, Teikyo University School of Medicine Department of Gastroenterology, National Center for Global Health and Medicine	Takatsugu Yamamoto Junichi Akiyama
SP01-4-1.	Successful treatment with a combination of endoscopic removal and Coca-Cola [®] for gastric bezoar Department of Gastroenterology, Graduate School of Medicine, Osaka Metropolitan University Hospital	Hideaki Kanazawa
SP01-4-2.	Contrast-enhance endoscopic ultrasound enabled fine needle aspiration for gastric submucosal tumor with hemorrhage: A case report First Department of Internal Medicine, Gifu University Hospital	Yuki Utakata
SP01-4-3.	A case of paraganglioma diagnosed by examination of epigastric pain Kindai University Hospital Gastroenterology and Hepatology, Osakasayama-shi	Tomohiro Yamazaki
SP01-4-4.	Comparison of Gel Immersion EMR and Underwater EMR for superficial non-ampullary duodenal epithelial tumors Division of Gastroenterology and Hepatology, Kansai Medical University Medical Center, Moriguchi	Natsuko Saito
SP01-4-5.	Simulation-based training (SBT) for dealing with sudden changes in the endoscopy room Department of Gastroenterology and Hepatology, Kaizuka City Hospital	Naruyasu Kakita
SP01-4-General Comment	Hyogo Prefectural Harima-Himeji General Medical Center	Yoshikazu Kinoshita

Special Program 1-5

First presentation in English at the congress 5

Friday, May 31 14 : 20 ~ 15 : 20 Room8 (PAMIR International Convention Center 1F ZUIKO)

Moderator	Endoscopy Division, Shizuoka Cancer Center	Hiroyuki Ono
	Department of Gastroenterology and Hepatology, Saitama Medical Center, Saitama Medical University	Masashi Oka
SP01-5-1. A rare case of intraepithelial tumor of the gastric phenotype in a gastric inverted polyp	Department of Gastroenterology, Dokkyo Medical University School of Medicine	Yosuke Kawata
SP01-5-2. Characteristics of gastric adenocarcinoma of fundic gland type and fundic mucosa type based on H.pylori infection	Department of Gastroenterology and Hepatology, Kyoto Prefectural University of Medicine	Hiroki Mukai
SP01-5-3. Successful Endoscopic Management of Gastric Ectopic Pancreas with Repeated Ulceration Bleeding	Department of Gastrointestinal Endoscopy, NTT Medical Center Tokyo	Tomoya Kimura
SP01-5-4. Effect of sarcopenia on short-term outcomes of gastric endoscopic sub-mucosal dissection.	Second Department of Internal Medicine, Osaka Medical and Pharmaceutical University Hospital	Hironori Tanaka
SP01-5-General Comment	Clinical Medicine Reseach Center, Fukuoka University Chikushi Hospital	Kenshi Yao

Special Program 1-6

First presentation in English at the congress 6

Friday, May 31 14 : 20 ~ 15 : 20 Room12 (GRAND PRINCE HOTEL SHIN TAKANAWA 3F HEIAN)

Moderator	Department of gastroenterological Surgery, Tokyo Medical University, Ibaraki Medical Center Department of Medicine, Division of Gastroenterology, Jichi Medical University	Mitsugi Shimoda Tomonori Yano
SP01-6-1. A case of iron deficiency anemia due to small intestinal polyp	Department of Gastroenterology, Tane General Hospital	Yuma Fujita
SP01-6-2. A case of small intestinal submucosal aneurysm with submucosal tumor-like elevation	Department of Gastrointestinal Endoscopy, NTT Medical Center Tokyo	Susumu Banjaya
SP01-6-3. A case of underwater EMR for duodenal gastric type tumor, with residual tumor in submucosa	Division of Research and Development for Minimally Invasive Treatment, Cancer Center, Keio University School of Medicine	Daisuke Minezaki
SP01-6-4. The efficacy of a re-openable clip with anchor prongs for the mucosal defect closure after colorectal ESD	Department of Endoscopy, The Jikei University School of Medicine	Naoya Tada
SP01-6-General Comment	Murata Clinic	Yoko Murata

Special Program 1-7

First presentation in English at the congress 7

Friday, May 31 15 : 20 ~ 16 : 20 Room8 (PAMIR International Convention Center 1F ZUIKO)

Moderator	Division of Gastroenterology, Department of Internal Medicine, Faculty of Medicine, Saga University Department of Gastroenterology, Hyogo Medical University	Motohiro Esaki Shinichiro Shinzaki
SP01-7-1. The efficacy of upadacitinib for hospitalized patients of moderate to severe ulcerative colitis	Third Department of Internal Medicine, Kansai Medical University	Yuka Ito
SP01-7-2. Case Series of MEFV Gene-related Enterocolitis Mimicking Crohn's Disease, Ulcerative Colitis, and Sigmoid Ischemic Colitis	Department of Internal Medicine, Kiryu Kosei General Hospital	Takashi Aikawa
SP01-7-3. Delayed Perforation after Endoscopic Detachable Snare Ligation for Colonic Diverticular Hemorrhage	Department of Minimally Invasive Surgical and Medical Oncology, Fukushima Medical University	Takayuki Nagahashi
SP01-7-4. The usefulness of prophylactic steroid treatment for cases with risk of stricture colorectal ESD	Division of Endoscopy, Shizuoka Cancer Center, Shizuoka, Japan	Shunsuke Ueda
SP01-7-5. Comparison of adenoma detection rate using the EVIS X1 vs EVIS LUCERA ELITE endoscopic system: a propensity score matching analysis	First Department of Medicine, Hamamatsu University School of Medicine	Tatsuhiro Ito
SP01-7-General Comment	Department of Gastroenterology, Institute of Medicine, University of Tsukuba	Kiichiro Tsuchiya

Special Program 1-8

First presentation in English at the congress 8

Friday, May 31 15 : 20 ~ 16 : 20 Room12 (GRAND PRINCE HOTEL SHIN TAKANAWA 3F HEIAN)

Moderator	Department of Gastroenterological Endoscopy, Kanazawa Medical University Department of Gastroenterology, Gifu University Graduate School of Medicine	Tsuyoshi Mukai Masahito Shimizu
SP01-8-1.	Study of preoperative biliary drainage for distal malignant biliary obstruction Department of Gastroenterology and Hepatology, Tokyo Medical University	Kyoko Asano
SP01-8-2.	Patency period of biliary stent for malignant bile duct stricture due to hepatocellular carcinoma - COX proportional hazards model analysis Department of Gastroenterology and Hepatology, Shimane University School of Medicine	Masatoshi Kataoka
SP01-8-3.	ERCP training for trainee: guide wire selection in ERCP a single-center prospective randomized controlled cross-over study Department of Internal Medicine, Minamiaizu Prefectural Hospital	Takumi Maki
SP01-8-4.	Common bile duct lithiasis with postoperative intestinal by endoscopic stone removal using the rendezvous technique: A report of two cases Department of Gastroenterology and Hepatology, Kyorin University School of Medicine	Takahiro Yamada
SP01-8-5.	Endoscopic lithotripsy combined with colonoscopy and cholangioscopy in patients with surgically altered anatomy Department of Gastroenterology, Tokyo Dental College Ichikawa General Hospital	Hidenori Shibuta
SP01-8-General Comment	Department of Medicine, Division of Gastroenterology, Showa University School of Medicine	Hitoshi Yoshida

Special Program 1-9

First presentation in English at the congress 9

Friday, May 31 16 : 20 ~ 17 : 20 Room8 (PAMIR International Convention Center 1F ZUIKO)

Moderator	Third Department of Internal Medicine, Kansai Medical University First Department of Medicine, Hamamatsu University School of Medicine	Makoto Naganuma Ken Sugimoto
SP01-9-1.	The association of bowel urgency with endoscopic severity in ulcerative colitis. Department of Gastroenterology, Kitasato University Kitasato Institute Hospital	Kanade Serizawa
SP01-9-2.	Ulcerative colitis associated neoplasia successfully treated with ESD after achieving mucosal healing with dose escalation of ADA therapy: a case report Gastroenterology, National Center for Global Health and Medicine	Kanji Shibata
SP01-9-3.	A case of Crohn's disease with inflammation of the intestinal duplication, where single-balloon enteroscope contributed to the diagnosis Department of Gastroenterology, NHO Kyoto Medical Center	Yoichi Asano
SP01-9-4.	A Case of Obstructive Colorectal Cancer Presenting Diagnostic Challenge in Differential Diagnosis from Stenotic Ischemic Colitis Department of Gastroenterology , National Hospital Organization Utsunomiya Hospital	Yuka Suzuki
SP01-9-General Comment	Professor Emeritus, Fukuoka University	Toshiyuki Matsui

Special Program 1-10

First presentation in English at the congress 10

Saturday, June 1 9 : 00 ~ 10 : 00 Room10 (PAMIR International Convention Center 1F GYOKO)

Moderator	Department of Internal Medicine, Kawasaki Medical School General Medical Center Department of Gastroenterology and Metabology, Ehime University School of Medicine	Hirofumi Kawamoto Yoichi Hiasa
SP01-10-1.	Is precut papillotomy safe for patients under anti-thromboembolic therapy? Department of General Internal Medicine 2, Kawasaki Medical School	Tomohiro Tanikawa
SP01-10-2.	Clinical outcomes of endoscopic papillectomy for tumors of the duodenal major papilla Department of Gastroenterology and Hepatology, Hokkaido University Hospital	Shunichiro Nozawa
SP01-10-3.	A very rare case of pancreatic stent migration Department of Medicine and Bioregulatory Science, Graduate School of Medical Sciences, Kyushu University	Akihiko Suenaga
SP01-10-4.	Outcomes of plastic versus metallic stents in EUS-guided hepatico-ent- terostomy for unresectable malignant biliary obstructions Department of Gastroenterology, Sendai City Medical Center	Haruka Okano
SP01-10-5.	Bleeding from bile duct varices caused by extrahepatic portal vein ob- struction due to pancreatic cancer Department of Hepato-Biliary-Pancreatic Medicine, Cancer Institute Hospital of Japanese Foundation for Cancer Research	Takahiro Ishitsuka
SP01-10-General Comment	Department of Gastroenterology and Hepatology, Yokohama City University	Atsushi Nakajima

Special Program 1-11

First presentation in English at the congress 11

Saturday, June 1 10 : 00 ~ 11 : 00 Room10 (PAMIR International Convention Center 1F GYOKO)

Moderator	Department of Gastroenterology, Tokyo Women's University Hospital Department of Gastroenterology, Nara Medical University	Masataka Kikuyama Hitoshi Yoshiji
SP01-11-1. Evaluation of Treatment Modalities in Prophylactic Esophageal Variceal Management	Department of Gastroenterology, Dokkyo Medical University	Yuka Suzuki
SP01-11-2. A case of pancreatic tail cancer diagnosed following gastric variceal rupture	Department of Gastroenterology, School of Medicine, Fukushima Medical University	Rei Ohira
SP01-11-3. A case of successful treatment with endoscopic metal stents for afferent loop syndrome	Gastroenterology, School of Medicine, Wakayama Medical University Hospital	Shigefumi Okamoto
SP01-11-4. The advantage of novel peroral cholangioscopy	Department of Gastroenterology, Yokohama City University Medical center	Hiromi Tsuchiya
SP01-11-5. Distinguishing the major duodenal papilla in texture and color enhancement imaging	Department of Gastroenterology, Saitama Medical University International Medical Center	Ryo Sato
SP01-11-General Comment	Headquaters, Japan Organization of Occupational Health and Safety	Hirohide Ohnishi

Special Program 3

The role of Japan in Endoscopic Medicine from Global Perspective

Friday, May 31 9:00 ~ 10:00 Room1 (PAMIR International Convention Center 3F HOKUSHIN)

Moderator	Department of Gastroenterology, Dokkyo Medical University School of Medicine Endoscopy Division, National Cancer Center Hospital, Tokyo, Japan Digestive Health Institute, Center for Advanced Endoscopy, Research and Education (CARE), Orlando Health	Atsushi Irisawa Yutaka Saito Robert Holbrook Hawes
SP03-1.	The role of Japan in Endoscopic Medicine from Global Perspective WEO President/Honorary Professor The Jikei University School of Medicine	Hisao Tajiri
SP03-2.	The role of Japan in Endoscopic Medicine from Asia Department of Surgery, Faculty of Medicine, The Chinese University of Hong Kong	Philip Chiu
SP03-3.	The Role of Japan in Endoscopic Medicine: An Asian Perspective Thai Association for Gastrointestinal Endoscopy, Faculty of Medicine Siriraj Hospital, Mahidol University	Northalee Pausawasdi
SP03-4.	The role of Japan in Endoscopic Medicine from Europe Gastroenterology and Hepatology, Emek Medical Center	Ian Mark Gralnek
SP03-5.	How should Japanese endoscopic advancement play a role in the U.S. Division of Gastroenterology and Hepatology, Mayo Clinic Arizona	Norio Fukami
SP03-6.	What Japanese GI endoscopists can do for developments of endoscopic medicine Department of Gastroenterology, Graduate of Medicine, The University of Tokyo	Mitsuhiro Fujishiro
SP03-Special Remarks	President, JA Onomichi General Hospital	Shinji Tanaka

Symposium 2

Current status and future perspectives of endoscopic diagnosis and treatment of Barrett's adenocarcinoma

Thursday, May 30 8 : 40 ~ 10 : 40 Room10 (PAMIR International Convention Center 1F GYOKO)

Moderator	Department of Gastroenterology, Dokkyo Medical University Department of Gastroenterology, Shinshu University School of Medicine Gastroenterology, University of Adelaide & Lyell McEwin Hospital	Kenichi Goda Yugo Iwaya Rajvinder Singh
S02-Keynote Lecturer	Current status and future perspectives of endoscopic diagnosis and treatment of Barrett's adenocarcinoma Gastroenterology, University of Adelaide & Lyell McEwin Hospital	Rajvinder Singh
S02-1.	Current status of endoscopic diagnosis and treatment of Barrett's esophagus with dysplasia in Taiwan Department of Gastroenterology & Hepatolog, E-DA Hospital	Wen-Lun Wang
S02-2.	ESD for Barrett's neoplasia: A Canadian perspective and clinical outcomes Gastroenterology, Queens university, Kingston Health Sciences Center	Robert Bechara
S02-3.	The endoscopic characteristics and pathophysiology of multiple lesions in Barrett's esophageal adenocarcinoma Division of Gastroenterology, Tohoku University Graduate School of Medicine	Masahiro Saito
S02-4.	Characteristics and causes of post-endoscopy Barrett's adenocarcinoma Department of Gastroenterology, School of Medicine, Shinshu University	Satoko Kako
S02-5.	Clinical impacts of the JES-BE magnifying endoscopic classification on endoscopically resected superficial Barrett's adenocarcinomas Department of Gastroenterology, Dokkyo Medical University School of Medicine	Keiichiro Abe
S02-6.	Utility of a Simplified Diagnostic Algorithm Based on the Japan Esophageal Society Classification for Barrett's Esophagus-Related Superficial Neoplasia: A Single-Center Retrospective Study Department of Gastroenterology and Hepatology, Mie University Hospital	Yohei Ikenoyama
S02-7.	Short- and long-term outcome of endoscopic resection for esophageal adenocarcinoma Department of Endoscopy, The Jikei University Daisan Hospital	Yuko Hara
S02-8.	Treatment outcomes of ESD for esophageal adenocarcinoma in long segment Barrett's esophagus Division of Gastroenterology, Cancer Institute Hospital of the Japanese Foundation for Cancer Research	Koyo Kido
S02-9.	Outcome of Barrett's esophageal Adenocarcinoma treated by ESD Department of Endoscopy, Saku Central Hospital Advanced Care Center	Akiko Takahashi
S02-Special Remarks	Department of Endoscopy, Saku Central Hospital Advanced Care Center	Tsuneo Oyama

Symposium 6

EUS-FNA; Trajectory so far and New Developments

Friday, May 31 14 : 50 ~ 17 : 10 Room5 (PAMIR International Convention Center 3F KOUN)

Moderator	Department of Gastroenterology, Shizuoka Medical Center	Koji Matsuda
	Third Department of Internal Medicine, University of Toyama	Ichiro Yasuda
	Gastroenterology, Hepatology and Nutrition, UT MD Anderson Cancer Center	Manoop S Bhutani
Commentator	Department of Anatomic Pathology, Kurashiki Central Hospital	Kenji Notohara

- | | | |
|----------------------|--|---------------------------|
| S06-Keynote Lecturer | Past, Present and Future of EUS FNA
Gastroenterology, Hepatology and Nutrition, UT MD Anderson Cancer Center | Manoop S Bhutani |
| S06-1. | Progress in EUS-guided liver biopsy
Department of Hepatology, Institute of Liver and Biliary Sciences (ILBS) | Vikram Bhatia |
| S06-2. | EUS-guided through-the-needle biopsy (EUS-TTNB) for Pancreas Cystic Tumor
Department of Gastroenterology, Asan Medical Center, University of Ulsan College of Medicine | Dong-Wan Seo |
| S06-3. | The state of EUS-FNA in Asia
Singapore General Hospital, Duke-NUS Medical School | Christopher Jen Lock Khor |
| S06-4. | Comparison between three types of needles for endoscopic ultrasound-guided fine needle biopsy
Department of Gastroenterology, Saitama Medical University International Medical Center | Akashi Fujita |
| S06-5. | The feasibility study of the lavage using Endoscopic ultrasound for the staging pancreatic cancer (animal study)
Division of Endoscopy The Jikei University School of Medicine | Takahiro Abe |
| S06-6. | Endoscopic ultrasound-guided tissue acquisition for focal liver lesions: an analysis of 114 cases
Division of Gastroenterology, Department of Internal Medicine, Showa University Fujigaoka Hospital, Yokohama | Yuichi Takano |
| S06-7. | Usefulness of Stereomicroscope and Precision Electronic Balance in Specimen Evaluation during EUS-FNA for Pancreatic Lesions
Department of Gastroenterology and Hepatology, Nagoya University Hospital | Takuya Ishikawa |
| S06-8. | Clinical significance of Endoscopic ultrasound-guided tissue acquisition for Para-Aortic Lymph Node
National Cancer Center Hospital, Department of Hepatobiliary and Pancreatic Oncology | Hideobu Hara |
| S06-9. | Comparative Study of 19G FNA and 22G FNB Needles in EUS-FNA/FNB Using the MOSE Method for Solid Lesion Sampling
Department of Gastroenterology, Teikyo University Mizonokuchi Hospital | Nobuhiko Katsukura |
| S06-10. | Histological Diagnostic Performance of EUS-FNB Using 22g for Pancreatic Cancer and Evaluation of Adequate Sample Collection for Cancer Genome Profiling
First department of internal medicine, Gifu university hospital | Ryuichi Tezuka |
| S06-11. | Current status of comprehensive genomic profiling in tissue specimens obtained by EUS-FNA in unresectable pancreatic cancer
Third Department of Internal Medicine University of Toyama | Nobuhiko Hayashi |

- S06-12. Diagnostic capability of EUS-guided tissue acquisition with simplified macroscopic on-site quality evaluation, a large single-center cohort study**
Gastroenterology and Hepatology, Tokyo Medical University Hiroyuki Kojima
- S06-Special Remarks**
Department of Gastroenterology, Narita Memorial Hospital Kenji Yamao

Panel Discussion 1

Endoscopic treatment strategies for benign and malignant biliary strictures

Thursday, May 30 8 : 40 ~ 11 : 10 Room2 (PAMIR International Convention Center 3F KEIUN)

Moderator	Department of Hepatobiliary and Pancreatic Oncology, National Cancer Center Hospital Division of Gastroenterology and Hepatology, Department of Medicine, Nihon University School of Medicine Gastroenterology, SoonChunHyang University School of Medicine	Susumu Hijoka Hirofumi Kogure Jong H. Moon
-----------	---	--

- | | | |
|-----------------------|--|------------------------|
| PD01-Keynote Lecturer | Update on Endoscopic treatment strategies for benign and malignant biliary strictures
Gastroenterology, SoonChunHyang University School of Medicine | Jong H. Moon |
| PD01-1. | Endoscopic evaluation of indeterminate biliary strictures: Cholangioscopy, EUS or both?
Department of Medicine and Therapeutics, The Chinese University of Hong Kong | Raymond Shing-Yan Tang |
| PD01-2. | Early adverse events of self-expandable metal stent placement for malignant distal biliary obstruction: A large multicenter study (Kansai EDS study group)
Department of Gastroenterology, Osaka General Medical Center | Takuo Yamai |
| PD01-3. | Positioning of double bare metal stent in therapeutic strategy for unresectable distal malignant biliary obstruction (Multicenter retrospective study)
Department of Gastroenterology, Dokkyo Medical University School of Medicine | Fumi Sakuma |
| PD01-4. | Prospective clinical trial of endoscopic transpapillary biliary drainage for distal biliary stricture of pancreatic cancer during preoperative chemotherapy with a 6-mm diameter FCSEMS (PURPLE SIX STUDY)
Department of Gastroenterology, Mie University Hospital | Reiko Yamada |
| PD01-5. | Efficacy of prophylactic 5-Fr gallbladder stent placement for preventing acute cholecystitis induced by metallic stents placed for distal malignant biliary strictures
Department of Gastroenterology, Sendai City Medical Center | Fumisato Kozakai |
| PD01-6. | Long-term efficacy of uncovered cross-wired metal stents for endoscopic bilateral stent-in-stent deployment in patients with inoperable hilar malignant biliary obstruction
Digestive Disease Center and Research Institute, Department of Internal Medicine, SoonChunHyang University Bucheon Hospital | Meung Chul Park |
| PD01-7. | Novel drainage technique for hilar cholangiocarcinoma: usefulness of the SPLAC method (Stent placement with length adjustment according to the case method)
Department of Gastroenterology and Hepatology, Kindai University Faculty of Medicine | Akihiro Yoshida |
| PD01-8. | Long-term outcomes of EUS-guided hepaticogastrostomy-based internal drainage for unresectable malignant hilar biliary obstruction
Department of Hepatobiliary and Pancreatic Oncology, National Cancer Center Hospital | Daiki Yamashige |
| PD01-9. | Comparison of conventional endoscopic transpapillary and peroral cholangioscopy-guided biopsy for diagnosing biliary strictures
Third Department of Internal Medicine, University of Toyama | Hiroki Kawanaka |
| PD01-10. | Prospective registration study of diagnostic yield and sample size in forceps biopsy under a novel digital cholangioscopy guidance
Osaka Medical and Pharmaceutical University, 2nd Department of Internal Medicine | Atsushi Okuda |

- PD01-11. The efficacy and safety of EUS-CDS utilizing anti-reflux metal stent in patients with malignant distal biliary obstruction
Division of Gastroenterology and Hepatology, Department of Internal Medicine, Nihon University School of Medicine Kei Saito
- PD01-12. EUS-guided choledochoduodenostomy without fistula dilation using a novel ultra-stiff high-sliding guidewire and a dumbbell-shaped metal stent as primary drainage for malignant distal biliary obstruction
Department of Gastroenterology, Aichi Medical University Tadahisa Inoue
- PD01-13. Long-term outcomes of fully covered self-expandable metal stents for refractory biliary strictures after living donor liver transplantation: A retrospective study at a tertiary center
Department of Gastroenterology, University of Ulsan College of Medicine, Asan Medical Center Dongwook Oh
- PD01-14. Fully covered metal stent versus multiple plastic stents for hepaticojejunostomy anastomotic stricture: a retrospective analysis of long-term outcomes
Department of Gastroenterology, Graduate School of Medicine, The University of Tokyo Tatsuya Sato
- PD01-15. Long-Term Outcomes of EUS-AI for Benign Bilioenteric Anastomotic Strictures, with an evaluation of Hepatic Fibrosis Progression
Tokyo Medical University Kazumasa Nagai
- PD01-16. Long-term outcome of balloon dilation for postoperative benign choledochojejunal anastomotic stenosis -investigation of restenosis risk factors and preventive effect of steroid local injection-
Center for Gastroenterology, Teine-keijinkai Hospital Haruka Toyonaga
- PD01-Special Remarks
Department of Internal Medicine, National Taiwan University Hsiu-Po Wang

Panel Discussion 5

Opening new windows -Interventional EUS for pancreatobiliary disease-

Saturday, June 1 9 : 00 ~ 11 : 00 Room2 (PAMIR International Convention Center 3F KEIUN)

Moderator	Department of Gastroenterology and Hepatology, Tokyo Medical University Endoscopy Center, Osaka Medical and Pharmaceutical University Hospital Surgery, The Chinese University of Hong Kong & Hong Kong Sanatorium Hospital	Takao Itoi Takeshi Ogura Anthony YB Tech
PD05-Special Remarks 1	Department of Gastroenterology, Dokkyo Medical University School of Medicine, Tochigi, Japan	Atsushi Irisawa
PD05-Keynote Lecturer	Advanced interventional EUS Surgery, The Chinese University of Hong Kong & Hong Kong Sanatorium Hospital	Anthony YB Tech
PD05-Special Remarks 2	Endoscopy Center, Kitasato University Hospital	Mitsuhiro Kida
PD05-1.	Opening new windows - Interventional EUS for pancreato-biliary disease Gastroenterology, Asian Institute of Gastroenterology, AIG Hospitals	Sundeep Lakhtakia
PD05-2.	Best practice of EUS-guided biopsy Department of Internal Medicine, National Taiwan University	Hsiu-Po Wang
PD05-3.	The Current Situation of Endoscopic Ultrasound (EUS) in Thailand Thai Association for Gastrointestinal Endoscopy, Faculty of Medicine Siriraj Hospital, Mahidol University	Northalee Pausawasdi
PD05-4.	Efficacy of nomogram for prediction of treatment-related adverse events after endoscopic drainage for peripancreatic fluid collections: WONDERFUL study group Dept. Of Gastroenterology, Juntendo University	Toshio Fujisawa
PD05-5.	Comparison of long-term outcomes of endoscopic ultrasound-guided gallbladder drainage and endoscopic transpapillary gallbladder drainage for calculous cholecystitis in poor surgical candidates Department of Gastroenterology, Aichi Medical University	Tadahisa Inoue
PD05-6.	EUS-guided biliary drainage in management of malignant hilar biliary obstruction First Deapartment of Internal Medicine, Gifu University Hospital	Takuji Iwashita
PD05-7.	B2 puncture may make EUS- guided hepaticogastrostomy safer and easier Aichi Cancer Center Department of Gastroenterology	Yoshitaro Yamamoto
PD05-8.	Puncture angle on EUS image is an independent factor associated with unsuccessful guidewire manipulation of EUS guided-hepaticogastrostomy (with video) Department of Medicine and Bioregulatory Science, Graduate School of Medical Sciences, Kyushu University	Akihisa Ohno
PD05-9.	Prospective randomized trial for technical success rate of tract dilation between 4-mm balloon catheter and drill dilator during EUS-guided hepaticogastrostomy Osaka Medical and Pharmaceutical University Hospital	Nobuhiro Hattori
PD05-10.	Risk factors associated with the peritonitis after endoscopic ultrasound-guided hepaticogastrostomy Division of Endoscopy, Shizuoka Cancer Center	Junya Sato

PD05-11. Long-term outcomes of EUS-guided balloon-occluded gastrojejunostomy bypass for malignant gastric outlet obstruction
Department of Gastroenterology and Hepatology, Tokyo Medical University

Yukitoshi Matsunami

Workshop 4

Clinical practice of inflammatory bowel disease by endoscopy based on “treat-to-target” strategy

Thursday, May 30 14 : 10 ~ 16 : 00 Room5 (PAMIR International Convention Center 3F KOUN)

<p>Moderator Molecular Gastroenterology and Hepatology, Kyoto Prefectural University of Medicine Department of Gastroenterology and Hematology, Hiroasaki University Graduate School of Medicine Department of Internal Medicine, National Taiwan University Hospital</p> <p>Commentator Fujita Medical University Medical Innovation Center/Haneda Clinic</p> <p>Discussant Department of Gastroenterology and Hepatology, Kyorin University School of Medicine Department of Endoscopy, Nagoya University Hospital</p>	<p>Tomohisa Takagi Hirotake Sakuraba Shu-Chen Wei Haruhiko Ogata Minoru Matsuura Mesanao Nakamura</p>
<p>WS04-Keynote Lecturer Role of endoscopy in IBD tight control:progress and perspectives Department of Internal Medicine, National Taiwan University Hospital</p>	<p>Shu-Chen Wei</p>
<p>WS04-1. Clinical application of “treat-to-target” strategy in patients with IBD: Experience from the Asan IBD center Department of Gastroenterology, University of Ulsan College of Medicine, Asan Medical Center</p>	<p>Sang Hyoung Park</p>
<p>WS04-2. Clinical practice of inflammatory bowel disease by endoscopy based on “treat-to-target” strategy Department of Gastroenterology, Ruijin Hospital, School of Medicine, Shanghai Jiao Tong University</p>	<p>Yubei Gu</p>
<p>WS04-3. Efficacy of biomarkers in predicting prognosis of Crohn’s disease patients with small bowel disease Endoscopic Unit, Tokyo Medical and Dental University Hospital, Tokyo, Japan</p>	<p>Ami Kawamoto</p>
<p>WS04-4. Relationship between Leucine-rich alpha 2 glycoprotein and prognosis in Crohn’s disease in clinical remission but with endoscopic activity Department of Endoscopy, Nagoya University Hospital</p>	<p>Tsunaki Sawada</p>
<p>WS04-5. A combination of leucine-rich alpha-2 glycoprotein, CRP, and fecal calprotectin can improve the accuracy of endoscopic remission in Crohn’s disease Department of Gastroenterology and Hepatology, Okayama University Hospital</p>	<p>Toshihiro Inokuchi</p>
<p>WS04-6. The safety and efficacy of radial incision and cutting with triamcinolone acetonide for intestinal structures associated with inflammatory bowel disease. Division of Gastroenterology, Tohoku University Hospital</p>	<p>Rintaro Moroi</p>
<p>WS04-7. Is the combination of blood and fecal markers superior to endoscopic evaluation in predicting prognosis in patients with ulcerative colitis? Third Department of Internal Medicine, Division of Gastroenterology and Hepatology, Kansai Medical University, Hirakata</p>	<p>Yusuke Honzawa</p>
<p>WS04-8. Clinical Usefulness of Hypoxia Imaging Colonoscopy for the Objective Measurement of Ulcerative Colitis Disease Activity Department of Gastroenterology, Institute of Medicine, University of Tsukuba</p>	<p>Shintaro Akiyama</p>
<p>WS04-9. Comparison of diagnostic accuracy between linked color imaging and autofluorescence imaging in patients with ulcerative colitis: a prospective observational study Division of Gastroenterology, Department of Internal Medicine, Asahikawa Medical University</p>	<p>Yuya Sugiyama</p>

- WS04-10. Novel image-enhanced endoscopy for predicting histological remission in ulcerative colitis**
Gastroenterology, School of Medicine, Chiba University
Yukiyo Mamiya
- WS04-11. Comparative study between endocytoscopic findings, mucus volume, and mucus phenotypes in patients with UC**
Division of Gastroenterology and Nephrology, Department of Multidisciplinary Internal Medicine, Tottori University Faculty of Medicine
Ryohei Ogihara
- WS04-Special Remarks**
Fujita Medical University Medical Innovation Center/Haneda Clinic
Haruhiko Ogata

Workshop 6

New Challenges for Gastrointestinal Disorders by EUS

Friday, May 31 9 : 00 ~ 11 : 00 Room5 (PAMIR International Convention Center 3F KOUN)

Moderator	Department of Gastroenterology, Graduate School of Medicine, Juntendo University Department of Gastroenterology, Aichi Cancer Center Interventional Endoscopy, California Pacific Medical Center	Hiroyuki Isayama Kazuo Hara Kenneth F Birnmoeller
WS06-Keynote Lecturer	Key milestones of interventional EUS Interventional Endoscopy, California Pacific Medical Center	Kenneth F Birnmoeller
WS06-1.	EUS-guided vascular interventions and EUS as a rescue therapy in endoscopic-related adverse events. División of Gastroenterology, Virgen Macarena University Hospital	Rafael Romero-Castro
WS06-2.	Endoscopic ultrasound-guided gastroenterostomy already as an impeccable treatment of malignant gastric outlet obstruction ? National Taiwan University Hospital	Yu-Ting Kuo
WS06-3.	New Challenges for Gastrointestinal Disorders by EUS Chulalongkorn University	Pradermchai Kongkham
WS06-4.	Efficacy of Endoscopic Ultrasound-Guided Gastroenterostomy for Affluent Loop Syndrome Department of Hepatobiliary and Pancreatic Oncology, National Cancer Center Hospital	Daiki Agarie
WS06-5.	EUS-guided portal vein embolization with angiography in animal studies Department of Gastroenterology, Dokkyo Medical University School of Medicine	Kazunori Nagashima
WS06-6.	Salvage techniques of lumen-apposing metal stent placement for walled-off necrosis :the WONDERFUL study group Dept. of Gastroenterology, The University of Tokyo	Tomotaka Saito
WS06-7.	A novel double pigtail plastic stent system with highly visible endoscopic markers for safe and reliable EUS-guided drainage Department of Gastroenterology and Hepatology, Saitama Medical Center, Saitama Medical University	Saburo Matsubara
WS06-8.	Comparison of recurrence after treatment of common bile duct stones in patients with surgically altered anatomy with EUS-antegrade procedure and double-balloon endoscopic ERC. Department of Gastroenterology, Juntendo University	Yusuke Takasaki
WS06-9.	Development of Preoperative Endoscopic Drainage Treatment for Acute Cholecystitis Department of Gastroenterology, Sendai Kousei Hospital	Toru Okuzono
WS06-10.	The potential of primary EUS-guided hepaticogastrostomy for preoperative cases in pancreatoduodenectomy Department of Gastroenterology, Aichi Cancer Center Hospital	Nozomi Okuno
WS06-Special Remarks	Department of Gastroenterology, Kyoto Second Red Cross Hospital	Kenjiro Yasuda

Workshop 7

Front lines of enteroscopy

Friday, May 31 9 : 00 ~ 10 : 30 Room6 (PAMIR International Convention Center 2F AOBA)

<p>Moderator Department of Medicine, Division of Gastroenterology, Jichi Medical University Department of Endoscopy, Tokyo Medical and Dental University Hospital Division of Gastroenterology, University of Alberta</p>	<p>Hironori Yamamoto Kazuo Ohtsuka Brendan Halloran</p>
<p>WS07-Keynote Lecturer Stricture Dilatation via Balloon-Assisted Endoscopy in Crohn's Disease Division of Gastroenterology, University of Alberta</p>	<p>Brendan Halloran</p>
<p>WS07-1. Frontlines of Enteroscopy in India</p>	<p>Apollo BGS Hospitals Rajkumar Prannath</p>
<p>WS07-2. Enteroscopic management of Peutz-Jeghers syndrome Department of Gastroenterology, Asan Medical Center, University of Ulsan School of Medicine</p>	<p>Jeong-Sik Byeon</p>
<p>WS07-3. Precise Anatomical Localization of Capsule Endoscope Using AI Software Department of Gastroenterology, Sapporo Orthopaedics and Cardiovascular Hospital</p>	<p>Hidetoshi Ohta</p>
<p>WS07-4. Capsule AI automatic diagnosis using Efficient GAN Department of Gastroenterology and Hepatology, Kindai University Faculty of Medicine</p>	<p>Yoriaki Komeda</p>
<p>WS07-5. Utility of Endoscopic Ultrasonography (EUS) Combined with Double Balloon Endoscopy (DBE) in the Diagnosis and Management of Small Intestinal Lesions: A 14-Year Institutional Study Department of Gastroenterology, Sendai Kousei Hospital, Miyagi, Japan</p>	<p>Ryuta Suzuki</p>
<p>WS07-6. Utility and long-term prognosis of endoscopic balloon dilation in Crohn's disease patients with five or more small intestinal strictures Division of Gastroenterology, Department of Medicine, Jichi Medical University</p>	<p>Jun Owada</p>
<p>WS07-7. Comparison of the efficacy of biologics for intestinal stricture in Crohn's disease Department of Gastroenterology and Hepatology, Tokyo Medical and Dental University</p>	<p>Shuji Hibiya</p>
<p>WS07-Special Remarks Department of Gastroenterology and Hepatology, Kindai University Faculty of Medicine</p>	<p>Hiroshi Kashida</p>

Video Workshop 11

Endoscopic treatment of gastrointestinal submucosal tumors

Saturday, June 1 14:30 ~ 16:10 Room11 (GRAND PRINCE HOTEL SHIN TAKANAWA 3F TENPYO)

Moderator	Department of Gastrointestinal Oncology, Osaka International Cancer Institute Division of Endoscopy, Yokohama City University Medical Center Department of Surgery, The Chinese University of Hong Kong	Noriya Uedo Kingo Hirasawa Hon Chi Yip
VWS11-Keynote Lecturer	Endoscopic or endo-laparoscopic resection of Upper gastrointestinal tract GIST - when and how? Department of Surgery, The Chinese University of Hong Kong	Hon Chi Yip
VWS11-1.	Endoscopic resection of submucosal tumors in the digestive tract in China Endoscopy Center, Zhongshan Hospital Fudan University	Mingyan Cai
VWS11-2.	Efficacy and safety of endoscopic resection for gastric submucosal tumors Department of Gastrointestinal Endoscopy, NTT Medical Center Tokyo	Yohei Minato
VWS11-3.	Current Status of Minimally Invasive Treatment for Gastric Submucosal Tumors in Our Institution Division of Endoscopy, Shizuoka Cancer Center	Haruka Nakamura
VWS11-4.	Endoscopic resection with one port placement: hybrid endoscopic treatment for introducing EFTR Division of Endoscopy, Yokohama City University Medical Center	Atsushi Sawada
VWS11-5.	Endoscopic Full-thickness Resection for Gastric Submucosal Tumors: A Japanese Multicenter Prospective Study Department of Gastrointestinal Oncology, Osaka International Cancer Institute	Satoki Shichijo
VWS11-6.	Therapeutic outcomes of per-oral endoscopic tumor resection (POET) for esophageal subepithelial lesions Digestive Diseases Center, Showa University Koto Toyosu Hospital	Yuto Shimamura
VWS11-7.	Endoscopic Resection of Gastrointestinal Subepithelial Tumors in the USA: Current State and Future Perspectives Harvard Medical School, Brigham and Women's Hospital	Hiroyuki Aihara
VWS11-Special Remarks	Department of Gastroenterological and General Surgery, Kyorin University Faculty of Medicine	Nobutsugu Abe

JGES STARS Program

Thursday, May 30 9:50 ~ 11:10 Room1 (PAMIR International Convention Center 3F HOKUSHIN)

Moderator Department of Gastroenterology, Saitama Medical University International Medical Center Shomei Ryozaawa

- | | | |
|-------|---|------------------------|
| JS-1. | THE SITUATION OF ENDOSCOPY IN VIETNAM
Gastrointestinal Endoscopy - Laparoscopic Surgery Center, Phuong Chau International Hospital | Nhan Do Duc Tri |
| JS-2. | The State of Endoscopy in the Philippines
University of the Philippines - Philippine General Hospital | Ruter Magtibay Maralit |
| JS-3. | The situation of Digestive Endoscopy in Cambodia
Gastroenterology, Calmette Hospital | Borathchakra Oung |
| JS-4. | INFLAMMATORY BOWEL DISEASE IN DR. M. DJAMIL GENERAL HOSPITAL, PADANG
Internal Medicine, RSUP Dr. M. Djamil Padang | Vesri Yoga |
| JS-5. | The current situation of endoscopy in Mongolia
Endoscopy, Ulaanbaatar Songdo Hospital | Bayasgalan Luvsandagva |
