

Category
01) Large-scale clinical trials
02-1) Type 1 diabetes a. etiology/pathophysiology/genetics
02-2) Type 1 diabetes b. diagnosis
02-3) Type 1 diabetes c. treatment
03-1) Type 2 diabetes a. etiology/pathophysiology/genetics
03-2) Type 2 diabetes b. diagnosis
03-3) Type 2 diabetes c. treatment
04-1) Other types of diabetes a. etiology/pathophysiology/genetics
04-2) Other types of diabetes b. diagnosis
04-3) Other types of diabetes c. treatment
05-1) Prediabetes, obesity, metabolic syndrome a. etiology/pathophysiology/genetics
05-2) Prediabetes, obesity, metabolic syndrome b. diagnosis
05-3) Prediabetes, obesity, metabolic syndrome c. treatment
06) Gestational diabetes/pregnancy with diabetes
07) Diabetes in elderly
08) Pediatric diabetes
09) Retinopathy etiology/pathophysiology/genetics
10) Nephropathy
11) Neuropathy
12-1) Macroangiopathy a. coronary heart disease/heart failure
12-2) Macroangiopathy b. stroke
12-3) Macroangiopathy c. peripheral artery disease/diabetic foot
12-4) Macroangiopathy d. others
13) Hypertension
14-1) Lipid metabolism a. dyslipidemia
14-2) Lipid metabolism b. cellular lipid metabolism disorders
15) Other metabolic disorders
16) Gangrene/diabetic foot
17) Infection (including COVID-19)
18) Cancer
19) Sarcopenia/frailty
20) Dementia
21) NAFLD/NASH(MASLD/MASH)
22) Other complications (periodontal disease etc)
23) Diet therapy
24) Exercise
25-1) Pharmacological treatment a. insulin therapy
25-2) Pharmacological treatment b. insulin pump
25-3) Pharmacological treatment c. sulfonylureas
25-4) Pharmacological treatment d. glinides
25-5) Pharmacological treatment e. biguanides
25-6) Pharmacological treatment f. incretin receptor agonists
25-7) Pharmacological treatment g. DPP-4 inhibitors
25-8) Pharmacological treatment h. SGLT2 inhibitors
25-9) Pharmacological treatment i. others
26) Transplantation (including islet transplantation)
27) Other treatment
28) Hypoglycemia

Category
29) Clinical laboratory tests/SMBG/CGM/i-CGM
30-1) Islet cell biology a. insulin secretion
30-2) Islet cell biology b. differentiation, proliferation and regeneration
30-3) Islet cell biology c. cell damage/apoptosis
30-4) Islet cell biology d. alpha cell, glucagon secretion
30-5) Islet cell biology e. others
31-1) Biology of adipocytes a. white adipocyte
31-2) Biology of adipocytes b. brown adipocyte/ beige adipocyte
31-3) Biology of adipocytes c. others
32) Biology of muscle
33) Biology of liver
34-01) Biology of intestine a. incretin/ other gastrointestinal hormone
34-02) Biology of intestine b. microbiota and metabolism
35) Biology of vessels
36) Central and autonomic nervous system regulation
37) Organ networks in the regulation of systemic homeostasis
38) Gene therapy/regenerative medicine
39) Biology in the other field
40-01) Diabetes education a. psychological issues and self-management
40-02) Diabetes education b. nutritional education for prevention of renal failure
40-03) Diabetes education c. nutritional education (other than 40-02)
40-04) Diabetes education d. diabetes team care
40-05) Diabetes education e. diabetes education skills
40-06) Diabetes education f. drug therapy
40-07) Diabetes education g. insulin therapy and insulin pump
40-08) Diabetes education h. self-monitoring of blood glucose
40-09) Diabetes education i. continuous glucose monitoring/isCGM
40-10) Diabetes education j. foot care
40-11) Diabetes education k. exercise and rehabilitation treatment
40-12) Diabetes education l. psychotherapy
40-13) Diabetes education m. education for pregnancy, the elderly and other special
40-14) Diabetes education n. others
41) Prevention program for diabetic nephropathy
42) Social healthcare/medical economics
43-01) Community health care/medical information
43-02) PHR · IoT
44) Disaster medicine
45) Stigma and advocacy
46) Others
