

The Issues of Laterality in Unilateral cleft lip and palate – Post Congress Symposium

Professor Yvonne Wren of the Cleft Collective, University of Bristol and Associate Professor David Chong, Royal Childrens Hospital, are leading a post congress symposium on the topic of laterality in cleft. With funding from the UK Academy of Medical Sciences, this multidisciplinary event will be complimentary. The day will bring together clinicians and researchers across the globe to explore both the causal pathway for left and right sided clefts as well as how treatment and outcomes may vary
