

Wednesday, March 12

9:00-9:25 / Large Conference Room407

Opening Ceremony

Opening address:

Masashi Yoshida (*International University of Health and Welfare Hospital*)

Presenter:

Yuko Kitagawa (*Department of Surgery, Keio University School of Medicine*)

Commission of the President Emeritus:

József Sándor (*Department of Experimental Cardiology and Surgical Techniques, Heart and Vascular Center, Semmelweis University*)

Grzegorz Wallner (*Department of General, Gastrointestinal Surgery and Surgical Oncology of the Digestive Tract, Medical University of Lublin*)

Commission of the President:

Attila Szijártó (*Department of Surgery, Transplantation and Gastroenterology, Semmelweis University*)

Wojciech Kielan (*University Centre of General and Oncological Surgery, Wrocław Medical University*)

Address from Embassy of Hungary Tokyo:

Bagdy Tóth Marcell (*Embassy of Hungary Tokyo*)

Address from Embassy of the Republic of Poland in Tokyo:

Embassy of the Republic of Poland in Tokyo (*Embassy of the Republic of Poland in Tokyo*)

9:30-10:05 / Large Conference Room407

Oral Session 1: Upper GI

Chairpersons: Grzegorz Wallner (*Department of General, Gastrointestinal Surgery and Surgical Oncology of the Digestive Tract, Medical University of Lublin*)

Yoshitaka Tsuji (*Department of Digestive Tract and General Surgery, Saitama Medical Center, Saitama Medical University*)

György Wéber (*Department of Surgery, Péterfy Sándor Street Hospital*)

O1-1 Factors Influencing Anastomotic Leakage and Stricture After Thoracoscopic Repair of Type C Tracheoesophageal fistula: A Retrospective Analysis of 42 Cases

Jiahui Liu

Nagoya University Graduate School of Medicine, Department of Pediatric Surgery

O1-2 Esophageal surgeons should know “Right Top Pulmonary Vein”

Yuta Sato

Department of Gastroenterological Surgery and Pediatric Surgery, Gifu University Graduate School of Medicine

O1-3 ApoA-I and ApoB levels as candidate pre-treatment biomarkers of pathomorphological response to neoadjuvant therapy in gastric- and esophago-gastric junction adenocarcinoma

Kamil Nurczyk

Second Department of General Surgery, Medical University of Lublin, Poland

O1-4 Optimal surgical approach for adenocarcinoma of the esophagogastric junction with esophageal invasion

Yoshiaki Shoji

Department of Gastroenterological Surgery, Tokai University School of Medicine

O1-5 The optimal reconstruction method for EGJ adenocarcinoma from the viewpoint of an esophageal surgeon

Eisuke Booka

Department of Surgery, Hamamatsu University School of Medicine, Shizuoka, Japan

10:10-10:59 / Large Conference Room407

Oral Session 2: Image Guided Surgery

Chairpersons: Toyofumi Fengshi (*Department of Thoracic Surgery, Nagoya University Graduate School of Medicine*)

Balázs Mohos (*Heart and Vascular Center, Semmelweis University*)

O2-1 The use of 3D Head Mount Display in Reconstructive Microsurgery Surgery

Miho Tobita

Department of Plastic and Reconstructive Surgery, Juntendo University School of Medicine, Tokyo, Japan

O2-2 Imaging modalities in lymphology

Balázs Mohos

Heart and Vascular Center, Semmelweis University, Budapest, Hungary

O2-3 Journey of Lymphedema Surgery in Hungary

Balázs Mohos

Heart and Vascular Center, Semmelweis University, Budapest, Hungary

O2-4 Current status and future perspectives of preoperative and intraoperative marking in thoracic surgery

Toyofumi Fengshi

Department of Thoracic Surgery, Nagoya University Graduate School of Medicine

**O2-5 Investigating Testicular Ischemia and Reperfusion:
An Assessment of Flow Dynamics Using Laser Speckle Contrast
Imaging**

Levente  Goschler

*Department of Experimental Cardiology and Surgical Techniques, Heart and Vascular
Center, Semmelweis University*

**O2-6 Innovative Blood Flow Evaluation through Oxygen Saturation
Imaging**

Chiyoe Shirota

*Department of Pediatric Surgery, Nagoya University Graduate School of Medicine,
Nagoya, Japan*

O2-7 Benefits of contrast enhanced ultrasound in surgical procedures

Justyna Wyrosiak-Najcs

*Department of General and Gastrointestinal Surgery and Surgical Oncology of the
Alimentary Tract, Medical University of Lublin*

11:02-11:30 / Large Conference Room407

Oral Session 3: Breast and Endocrine

Cosponsored by the 43rd Meeting of the Japanese Society for Cytoprotection & Cytobiology

Chairpersons: Rodney Dofitas (*Department of Surgery, University of the Philippines - Philippine
General Hospital*)

Dezs T (*Institute of Surgery, University of Debrecen*)

**O3-1 Finnish Perspectives on Autologous Fat Grafting in Breast
Reconstruction**

Mayu Hosio

*Department & Affiliation: Department of Plastic and Reconstructive Surgery, Juntendo
University School of Medicine, Tokyo, Japan*

**O3-2 Indocyanine green fluorescence guided sentinel lymph node
biopsy in patients with breast cancer**

Kludia Balog

University of Debrecen, Surgery Clinic

O3-3 A decade's experience in surgery of renal hyperparathyroidism

Kristf Ills

Semmelweis University, Department of Surgery, Transplantation and Gastroenterology

**O3-4 CVC for renal replacement therapy: If it can happen, it will
happen**

Nomi Mil

Department of Thoracic Surgery, B.-A.-Z. County Central Hospital, Miskolc City

11:35-12:10 / Large Conference Room407

Oral Session 4: Robotic Surgery

Chairpersons: Attila Szijártó (*Department of Surgery, Transplantation and Gastroenterology, Semmelweis University*)

Koichi Suda (*Divisions of GI & HPB, Department of Surgery, Fujita Health University, Collaborative Laboratory for Research and Development in Advanced Surgical Intelligence*)

Julia Rudno-Rudzińska (*University Centre of General and Oncological Surgery, Wrocław Medical University*)

O4-1 On the way of Autonomuos Robot-Surgery

József Sándor

Department of Experimental Cardiology and Surgical Techniques, Heart and Vascular Center

Department of Surgery, Transplantation and Gastroenterology Semmelweis University, Budapest, Hungary

Medical Robotics, Antal Bejczy Center for Intelligent Robotics

University Research and Innovation Center (EKIK), Óbuda University, Budapest, Hungary

O4-2 Short-term results of fusion surgery in robot-assisted gastrectomy

Mika Ogimi

Department of Gastroenterological Surgery, Tokai University

O4-3 Training in robotic surgery for gastrointestinal and colorectal surgery, the impact of laparoscopic skills on initial surgical robotic performance.

Kamil Rapacz

General, Oncological, Gastroenterological and Transplant Surgery Clinical Department, University Hospital in Cracow, Poland; Jagiellonian University Medical College

O4-4 Robotic Assisted Liver Surgery in Semmelweis University - from peripheral segment 6 resection to two stage perihilar cholangiocarcinoma procedure

Attila Szijártó

Department of Surgery, Transplantation and Gastroenterology Semmelweis University,

O4-5 Robot-assisted surgery is beneficial for patients with pediatric congenital biliary dilatation weighing 10 kg or less

Hiroki Ishii

Nagoya University Graduate School of Medicine, Department of Pediatric Surgery

13:25-14:14 / Large Conference Room407

Oral Session 5: Hepato-Biliary-Pancreatic Surgery

Chairpersons: Masahiko Kinoshita (*Department of Hepato-Biliary-Pancreatic Surgery, Osaka Metropolitan University Graduate School of Medicine*)

Kristóf Dede (*Department of Surgical Oncology, Uzsoki Teaching Hospital*)

Michał Grąt (*Department of General, Transplant and Liver Surgery, Medical University of Warsaw*)

O5-1 Effects of calcium electroporation (CaEP), electrochemotherapy (ECT) and irreversible electroporation (IRE) in patients with locally advanced pancreatic adenocarcinoma. On-going clinical trial (IREC).

Julia Rudno-Rudzińska

Department of General and Oncological Surgery, Medical University of Wrocław

O5-2 Impact of preoperative biliary drainage on postoperative complication after pancreaticoduodenectomy

Kohei Nishio

Department of Hepato-Biliary-Pancreatic Surgery, Osaka Metropolitan University Graduate School of Medicine

O5-3 Resection margins after pancreatoduodenectomy - impact of margin localization and involvement on cancer recurrence

Magdalena Gajda

Department of Gastrointestinal Surgery, Medical University of Silesia, Poland

O5-4 Laparoscopic liver surgery in our practice: evolution, standards, results

Kristóf Dede

Department of Surgical Oncology, Uzsoki Teaching Hospital, Budapest, Hungary

O5-5 Impact of pathological subclassification of intrahepatic cholangiocarcinoma on lymph node metastasis

Mizuki Yoshida

Department of Hepato-Biliary-Pancreatic Surgery, Osaka Metropolitan University Graduate School of Medicine, Osaka, Japan

O5-6 The application of ultrashort electric pulses in multi-drug resistant (MDR) pancreatic cancer

Julita Kulbacka

Department of Molecular and Cellular Biology, Faculty of Pharmacy, Wrocław Medical University, Poland

O5-7 First experience with double venous deprivation of the liver in Hungary

Bálint Kokas

Department of Surgery, Transplantation, and Gastroenterology, Semmelweis University

14:17-14:59 / Large Conference Room407

Oral Session 6: Stomach

Chairpersons: Kimiyasu Yamazaki (*Division of Gastroenterological and General Surgery, Department of Surgery, School of Medicine, Showa University*)

Géza Telek (*Department of Surgery, South Pest Center Hospital (DPC) - National Institute of Hematology and Infectology*)

Kamil Nurczyk (*Second Department of General, Gastrointestinal Surgery and Surgical Oncology of the Digestive Tract, Medical University of Lublin*)

O6-1 Treatment for metastatic advanced gastric cancer according to cancer cachexia

Hiroyuki Kitagawa

Department of Operating Room Management, Kochi Medical School Hospital

O6-2 Total gastrectomy in patients with gastric cancer - short - and long terms outcomes from a single center in Poland

Karolina Majewska

Department of Gastrointestinal Surgery, Medical University of Silesia, Katowice, Poland

O6-3 Short- and long-term outcomes of laparoscopic and endoscopic cooperative surgery for gastric cancer

Kimiyasu Yamazaki

Division of Gastroenterological and General Surgery, Department of Surgery, School of Medicine, Showa University

O6-4 The impact of comorbidities on treatment outcome in older patients undergoing gastrectomy for cancer.

Urszula Skorus-Zadęcka

First Department of Surgery, Jagiellonian University Medical College, Poland

O6-5 Clinical Outcomes of Adenocarcinoma of the Esophagogastric Junction Following Surgery After Neoadjuvant Chemotherapy

Yamato Ninomiya

Department of Gastroenterological Surgery, Tokai University School of Medicine

O6-6 The effect of preoperative anemia and perioperative blood transfusion on complications and prognosis after gastric cancer surgery.

Daromir Godula

First Department of Surgery, Jagiellonian University Medical College, Cracow, Poland

15:03-15:45 / Large Conference Room407

Oral Session 7: Plastic, Head and Neck Surgery

Chairpersons: Hiroshi Mizuno (*Department of Plastic and Reconstructive Surgery, Juntendo University School of Medicine*)

Róbert Késmárszky (*ENT, CM Montparnasse, Paris, France*)

Piotr Donizy (*Department of Clinical and Experimental Pathology, Wrocław Medical University*)

O7-1 Regenerative Aesthetics - Towards Establishment as Evidence-Based Medicine in Plastic and Aesthetic Surgery

Hiroshi Mizuno

Department of Plastic and Reconstructive Surgery, Juntendo University School of Medicine, Tokyo, Japan

O7-2 Treatment of diabetic foot ulcers and chronic wounds with an antibacterial-antioxidant hydrating cream that promotes wound healing. Striking prevalence of colonisation by colon flora.

Géza Telek

South Pest Center Hospital (DPC) - National Institute of Hematology and Infectology, Department of Surgery, Budapest, Hungary

O7-3 Merkel cell carcinoma (MCC) - an ultra-rare and highly aggressive skin cancer: unmet needs and challenges in 2025

Piotr Donizy

Department of Clinical and Experimental Pathology, Wrocław Medical University, Wrocław, Poland/ Department of Pathology and Clinical Cytology, Jan Mikulicz-Radecki University Hospital, Wrocław, Poland

O7-4 Single cell analysis of keloids.

Riho Takayanagi

Department of Plastic and Reconstructive Surgery, Keio University School of Medicine

O7-5 Posterior Crossbite orthodontic treatment protocol in young patients

Anna Pelc
Dental Clinic Wroclaw

O7-6 Minimally invasive cryosurgery for the aesthetic removal of congenital melanocytic nevi.

Mayuko Okura
Department of Plastic and Reconstructive Surgery, Keio University School of Medicine, Tokyo, Japan

15:50-16:39 / Large Conference Room407

Oral Session 8: Fluorescence Guided Surgery

Chairpersons: Chiyoë Shirota (*Department of Pediatric Surgery, Nagoya University Graduate school of Medicine*)

Kitti Nagy (*Institute of Surgery, University of Debrecen*)

Tomasz Kruszyna (*Department of General, Oncological and Gastroenterological Surgery, Jagiellonian University Medical College in Cracow*)

O8-1 Near-infrared fluorescence cholangiography during minimally invasive liver surgery

Masahiko Kinoshita
Department of Hepato-Biliary-Pancreatic Surgery, Osaka Metropolitan University Graduate School of Medicine

O8-2 Intraoperative Subserosal Approach in Near Infrared Imaging for open D2 lymphadenectomy - a Case Series

Tomasz Kruszyna
Department of General, Oncological and Gastroenterological Surgery, Jagiellonian University Medical College in Cracow

O8-3 Introduction of Fluoroscopic Surgery

Junji Takahashi
Department of surgery, International University of Health and Welfare Hospital

O8-4 Indocyanin green guided minimal invasive liver surgery

Kitti Nagy
University of Debrecen, Department of Surgery, Debrecen, Hungary

O8-5 Enhanced Ureteral Visualization for Precision Laparoscopic Surgery Using Near-Infrared Fluorescent Ureteral Catheters in Complex Sigmoid Diverticulitis: A Retrospective Cohort Study

Yuta Imaizumi

Department of Gastroenterological Surgery, Kawaguchi Municipal Medical Center

O8-6 The Use of Intraoperative Indocyanine Dye in Thyroid Surgeries

Mónika Andrási

Institute of Surgery, University of Debrecen

O8-7 The Usefulness of Anatomy Recognition by AI and ICG Fluorescence Method in Gastric Cancer Surgery Education. A study of 90 surgical novices

Ryohei Watanabe

Division of Gastroenterological & General Surgery, Department of Surgery, School of Medicine, Showa University, Tokyo, Japan

16:43-17:25 / Large Conference Room407

Oral Session 9: Transplantation

Chairpersons: Huszty Gergely (*Department of Surgery, Transplantation and Gastroenterology, Semmelweis University*)

Krzysztof Zieniewicz (*Department of General, Transplant and Liver Surgery, Medical University of Warsaw*)

O9-1 Machine perfusion in liver transplantation: state of the art and perspectives in Hungary

Gergely Huszty

Semmelweis University, Department of Surgery, Transplantation and Gastroenterology

O9-2 Liver transplantation in treatment of unresectable perihilar cholangiocarcinoma – Polish experience

Maciej Krasnodębski

Department of General, Transplant and Liver Surgery, Medical University of Warsaw, Poland

O9-3 Liver Transplant Oncology - current practice in Hungary and future perspectives

Anna Zsófia Meltzer

Department of Surgery, Transplantation and Gastroenterology, Semmelweis University

O9-4 Comparative Outcomes of Modified Bicaval Heart Implantation Technique vs. Conventional Bicaval Technique

Givi Damenija

Department of Experimental Cardiology and Surgical Techniques, Heart and Vascular Center, Semmelweis University

O9-5 Salvage auxiliary liver transplantation in trauma induced acute liver injury NOT acute liver failure

Emilia Kruk

Department of General, Transplant and Liver Surgery, Medical University of Warsaw, Poland.

O9-6 Outcomes of the third kidney transplantations. A single center experience

Gábor Telkes

Department of Surgery, Transplantation and Gastroenterology, Semmelweis University

17:28-18:03 / Large Conference Room407

Oral Session 10: Colo-rectal Surgery

Chairpersons: Ryo Seishima (*Department of Surgery, Keio University School of Medicine*)

Zoltán Jánó (*Department of Surgery, Veszprém County Hospital, Hungary*)

O10-1 Reconstructive surgery for extensively resected pelvis

Soh Nishimoto

Department of Plastic Surgery, Hyogo Medical University

O10-2 The Hungarian Transanal Registry

Zoltán Jánó

Department of Surgery, Veszprém County Hospital, Hungary

O10-3 Characteristics of Ulcerative Colitis Surgery in the Era of Biologics

Ryo Seishima

Department of Surgery, Keio University School of Medicine

O10-4 Laparoscopic modified Strong procedure for superior mesenteric artery syndrome, video case report.

Michał Solecki

2nd Department of General, Gastrointestinal and Oncological Surgery of the Alimentary Tract, Medical University of Lublin, Poland

O10-5 Laparoscopic sigmoidopexy to the abdominal wall (LaSPAW) for complete rectal prolapse

Junji Takahashi

Department of surgery, International University of Health and Welfare Hospital

Thursday, March 13

13:35-13:56 / Large Conference Room407

Oral Session 11: Hernia

Chairpersons: György Wéber (*Department of Surgery, Péterfy Sándor Street Hospital*)

Norihito Wada (*Department of Medical Device Engineering, Kobe University Graduate School of Medicine*)

O11-1 Our initial experience with the laparoscopic posterior component separation (e-TEP) technique

Zsolt József Varga

Department of Surgery, Clinical Center, University of Debrecen

O11-2 A large clinical trial conducted 25 years ago fundamentally changed Hungarian hernia surgery practice.

Gábor Petrik

Péterfy Sándor Street Hospital, Budapest, Hungary

O11-3 The Evolution and Future Perspectives of Inguinal Hernia Repair in Japan

Norihito Wada

Department of Medical Device Engineering, Kobe University Graduate School of Medicine

13:58-14:40 / Large Conference Room407

Oral Session 12: Cardio-Vascular, Radiological Intervention

Chairpersons: Péter Sótonyi (*Heart and Vascular Center, Department of Vascular and Endovascular Surgery, Semmelweis University*)

Mai Tsutsui (*Department of Surgery, Ogikubo Hospital*)

Maciej Guziński (*Department of General, Interventional and Neuroradiology, Wrocław Medical University*)

O12-1 Autoimmunity and Inflammation of Vessel Walls in Relation to Abdominal Aortic Aneurysms

Péter Sótonyi

Department of Vascular and Endovascular Surgery, Budapest, Hungary, Semmelweis University

O12-2 Selective Shunting Based on Circle of Willis Assessment Reduces Neurologic Events in Carotid Endarterectomy

Péter Banga

Budapest, Hungary, Vascular and Endovascular Department, Semmelweis University

O12-3 Multiorgan characterization of inflammasome expression in a surgical rat model of advanced heart failure

Dávid Nagy

Department of Surgical Research and Techniques, Heart and Vascular Center, Semmelweis University

O12-4 Lipiodol Bleomycin Embolization in patients with giant hepatic hemangioma. A 10-year single center experience

Maciej Guziński

Department of General, Interventional and Neuroradiology, Wrocław Medical University

O12-5 Treatment strategies for visceral artery aneurysms from a Japanese single-center experience

Naoki Fujimura

Department of Surgery, Keio University School of Medicine, Tokyo, Japan

Wednesday, March 12

12:35-13:03 / Large Conference Room407

Poster Session 1: Hepato-Biliary-Pancreatic Surgery

Chairpersons: Masahiko Kinoshita (*Department of Hepato-Biliary-Pancreatic Surgery, Osaka Metropolitan University Graduate School of Medicine*)

István Hritz (*Department of Surgery, Transplantation and Gastroenterology, Division of Interventional Gastroenterology, Semmelweis University*)

Michał Solecki (*Second Department of General, Gastrointestinal Surgery and Surgical Oncology of the Digestive Tract, Medical University of Lublin*)

P1-1 Biliary complications after liver transplantation: data from the last 15 years of the Hungarian liver transplant program

Szilvia Szőke

Department of Surgery, Transplantation and Gastroenterology, Semmelweis University

P1-2 Human alveolar echinococcosis of the liver: single center data from the last 2 decades

Damján Pekli

Department of Surgery, Transplantation and Gastroenterology, Semmelweis University

P1-3 Management of bile duct stones – can we solve all cases just by an endoscope?

István Hritz

Department of Surgery, Transplantation and Gastroenterology, Semmelweis University

P1-4 Risk factors of pancreatic cancer recurrence and mortality after resection - a single center study

Ewa Grudzińska

Department of Gastrointestinal Surgery, Medical University of Silesia, Poland

12:35-13:10 / Large Conference Room407

Poster Session 2: Minimally Invasive Surgery

Chairpersons: Hiroyuki Kitagawa (*Department of Surgery, Kochi Medical School*)

József Pap-Szekeres (*Department of General Surgery,, Péterfy Sándor utcai Hospital*)

P2-1 Laparoscopic resection of a gastric duplication cyst located near the esophagogastric junction

Akira Marui

Department of Surgery, Kochi Medical School

P2-2 Clinical features of late intestinal complications after minimally invasive total gastrectomy

Akiko Serizawa

Department of Surgery, Fujita Health University

P2-3 Laparoscopic transduodenal ampullectomy

Károly Szabó

BAZ County Central Hospital and University Teaching Hospital Miskolc, Hungary

P2-4 Laparoscopic partial splenectomy in a patient with splenic hemangioma after distal gastrectomy for a neuroendocrine tumor

Keiichiro Yokota

Department of Surgery, Kochi Medical School

P2-5 Successful treatment of gastric cancer with gastroduodenal intussusception by laparoscopic distal gastrectomy

Kohei Araki

Department of Surgery, Kochi Medical School

12:35-13:03 / Large Conference Room407

Poster Session 3: Multidisciplinary Treatment

Chairpersons: Jo Tokuyama (*Department of surgery, Nerima General Hospital*)

Szabolcs Máté (*Department of Obstetrics and Gynecology, Semmelweis University*)

Ewelina Frejlich (*University Centre of General and Oncological Surgery, Wrocław Medical University*)

P3-1 Successful Conversion Surgery Following Effective Chemotherapy and Immune Checkpoint Inhibitor Therapy in Gastric Adenocarcinoma with Enteroblastic Differentiation: A Case Report

Mizuki Fukuda

Department of Surgery, The Jikei University, Kashiwa Hospital, Japan.

P3-2 Cytoreductive Surgery (CRS) and Hyperthermic Intraperitoneal Chemotherapy (HIPEC) for Peritoneal Malignancies: Current Practices and Outcomes at Semmelweis University

Szabolcs Máté

Department of Obstetrics and Gynecology, Semmelweis University

P3-3 Long-term survival after conversion surgery for gastric cancer with multiple liver metastases which included viable tumor cells; a case report

Rintaro Sakamoto

Department of Gastroenterological Surgery and Pediatric Surgery, Gifu University Graduate School of Medicine

P3-4 A case report of seven-year long-term survival with appendiceal mucinous carcinoma with peritoneal dissemination

Jo Tokuyama

Department of surgery, Nerima General Hospital

12:35-13:03 / Large Conference Room407

Poster Session 4: GI Surgery

Chairpersons: Ryohei Watanabe (*Division of Gastroenterological & General Surgery, Department of Surgery, School of Medicine, Showa University*)

Géza Telek (*Department of Surgery, South Pest Center Hospital (DPC) - National Institute of Hematology and Infectology*)

P4-1 A case of strangulated bowel obstruction due to falling staple needle treated under single incision laparoscopy

Tomohiro Baba

Department of Surgery, Nerima General Hospital, Japan

P4-2 Case Report: Cancer of Unknown Primary diagnosed from peritoneal and perigastric lymphadenopathy in an 82-Year-Old Man

Kieko Suzuki

Department of Surgery, Nerima General Hospital

P4-3 Pathology of the tissue desiccation – an experimental model

Györgyi Szabó

Department of Experimental Cardiology and Surgical Techniques, Heart and Vascular Center, Semmelweis University

P4-4 A case undergoing curative surgery for cecal cancer with a venous tumor thrombus in the ileocolic vein

Shinichiro Kondo

Department of surgery, Nerima General Hospital, Japan

12:35-13:03 / Large Conference Room407

Poster Session 5: Breast, Thyroid and Image Diagnosis

Chairpersons: Junji Takahashi (*Department of surgery, International University of Health and Welfare Hospital*)

Dávid Ágoston Kovács (*Institute of Surgery, University of Debrecen*)

Justyna Wyroślak-Najs (*Second Department of General, Gastrointestinal Surgery and Surgical Oncology of the Digestive Tract, Medical University of Lublin*)

P5-1 Investigating the effectiveness and safety of volume displacement and replacement techniques in oncoplastic breast-conserving surgery

Zoltán Klárik

Department of Surgery, Transplantation and Gastroenterology, Semmelweis University, Hungary

P5-2 Radioguided surgery in the treatment of recurrent or residual papillary thyroid cancer

Dávid Ágoston Kovács

Institute of Surgery, University of Debrecen

P5-3 Spontaneous Regression of a Cervical Spinal Canal Cavernous Hemangioma After Hemorrhage: A Case Report and Implications for Conservative Management

Minami Saura

Tsukuba Memorial Hospital, neurosurgery

P5-4 Applied Anatomy of the Lower Face and Ear Area. How to Avoid Iatrogenic Nerve Injuries

Róbert Késmárszky

ENT, CM Montparnasse, Paris, France

12:35-13:10 / Large Conference Room407

Poster Session 6: Complications

Chairpersons: Tetsuya Nakamura (*Department of Surgery, Tachikawa Hospital*)
Lóránt Illésy (*Institute of Surgery, University of Debrecen*)

- P6-1 Evaluation of the Utility of G8 Screening and Cognitive Function Assessment for Predicting Postoperative Complications in Elderly Patients Undergoing Gastrointestinal and hepato-biliary-pancreatic Cancer Surgery**
Yuliany Putri
International University of Health and Welfare Narita Hospital, Department of Hepato-Biliary-Pancreatic and Gastrointestinal Surgery
- P6-2 Antioxidant Defense Mechanisms in Postoperative Adhesion Formation: A Molecular Analysis of Oxidative Stress Response**
Fanni Csilla Major
Department of Experimental Cardiology and Surgical Techniques, Heart and Vascular Center, Semmelweis University
- P6-3 Anaphylactic Shock Induced by the COVID-19 mRNA Vaccine Comirnaty in an Anti-PEG Hyperimmune Large Animal Model**
Barta Bálint
Scientific Research Laboratory, Heart and Vascular Center, Semmelweis University, Budapest, Hungary
- P6-4 Surgical complications after kidney transplantation based on the Clavien classification, especially with regard to the types of ureteral anastomoses**
Lóránt Illésy
Surgery Department, Faculty of Medicine, University of Debrecen
- P6-5 TiO₂: Ag coating on orthodontic archwires: A promising approach to reduce Streptococcus mutans growth and enamel demineralization during orthodontic treatment.**
Zofia Kielan-Grabowska
Dental Clinic Wrocław, Poland

Thursday, March 13

9:10-9:45 / Large Conference Room407

Joint Session with Japanese Gastric Cancer Association-1

Chairpersons: Koshi Kumagai (*Department of Upper Gastrointestinal Surgery, Kitasato University School of Medicine*)

József Sándor (*Department of Experimental Cardiology and Surgical Techniques, Heart and Vascular Center, Semmelweis University*)

Wojciech Kielan (*Professor of surgery. Head of Department, University Centre of General and Oncological Surgery, Wrocław Medical University*)

JS1-1 Influence of Japanese surgeons on the outcomes of the treatment of gastric cancer patients in Poland

Grzegorz Wallner

Second Department of General, Gastrointestinal Surgery and Surgical Oncology of the Digestive Tract, Medical University of Lublin, Poland

JS1-2 Technical Refinements and Improved Outcomes of D-LECS for SNADET

Koshi Kumagai

Department of Upper Gastrointestinal Surgery, Kitasato University School of Medicine

JS1-3 Side - to - side versus end - to - side esophagojejunostomy after total gastrectomy: in vivo and ex vivo experimental study in pig animal models

Péter Kolozsi

Institute of Surgery, University of Debrecen

JS1-4 Long-Term Feasibility and Quality of Life Following Laparoscopic Local Resection with Infrared Sentinel Lymph Node Biopsy for Early Gastric Cancer

Naoto Takahashi

Department of Surgery, The Jikei University Kashiwa Hospital, Japan

JS1-5 Caspases in -3, -8, -9 gastric cancer

Ewelina Frejich

University Centre of General and Oncological Surgery, Clinical Department of Oncological Surgery, Wrocław Medical University

9:55-10:40 / Large Conference Room407

Joint Session with Japanese Gastric Cancer Association-2

Chairpersons: Dezső Tóth (*Institute of Surgery, University of Debrecen*)

Grzegorz Wallner (*Professor Emeritus Head of Department. Co-President of JHP-SS, Second Department of General, Gastrointestinal Surgery and Surgical Oncology of the Digestive Tract, Medical University of Lublin*)

Naoto Takahashi (*Department of Surgery, The Jikei University Kashiwa Hospital*)

JS2-1 Immunotherapy and targeted therapy for stomach cancer - a step away from the breakthrough or a vision of the future

Bartosz Wilczyński

Second Department of General & Gastrointestinal Surgery & Surgical Oncology of the Alimentary Tract. Medical University of Lublin, Lublin, Poland

JS2-2 The postgastrectomy symptoms and the quality of life after function-preserving gastrectomy for gastric cancer in the Japanese large-scale study

Shinichi Kinami

Department of Surgical Oncology, Kanazawa Medical University

JS2-3 A randomized, multicenter clinical trial comparing the combination of perioperative FLOT and laparoscopic HIPEC in advanced gastric cancer (CHIMERA) – feasibility and safety analysis

Tomaz Kruszyna

Department of General, Oncological and Gastroenterological Surgery, Jagiellonian University Medical College in Cracow

JS2-4 Perioperative Management of Non-Metastatic Gastroesophageal Cancer in a Philippine University Hospital: A 10-Year Experience

Dawn Andrea Fontanar

Department of Surgery, Philippine General Hospital

JS2-5 Robot assisted surgery for gastrointestinal cancer using indocyanine green conjugated endoscopic marking clip under Firefly fluorescence imaging

Tsutomu Namikawa

Department of Clinical Nursing, Kochi Medical School

JS2-6 Treatment of older patients with gastric cancer.

Urszula Skorus

*Department of General, Gastrointestinal, Oncologic Surgery and Transplantology, I
Chair of General Surgery Jagiellonian University Medical College, Poland*

14:40-14:47 / Large Conference Room407

Closing Remarks

Wojciech Kielan (*Professor of surgery. Head of Department, University Centre of General and Oncological Surgery, Wrocław Medical University*)

Masashi Yoshida (*International University of Health and Welfare Hospital*)
