

The 11th Asian Pacific Topic Conference

DAY1

Time & Date : 9 : 00~16 : 50, Thursday, April 21, 2022

Place : Room 6 (3F, Room "Grace", Keio Plaza Hotel Tokyo)

Main Theme : Advanced endoscopic diagnosis and treatment for digestive tract cancer

Opening Remarks (9 : 00~9 : 05)

Akira Andoh (Division of Gastroenterology, Department of Medicine, Shiga University of Medical Science, Japan)

I. Keynote Lecture (9 : 05~9 : 25)

Moderator : Yoshiyuki Ueno (Department of Gastroenterology, Yamagata University, Japan)

APTC1 Ancient human footprints left in *Helicobacter pylori*
Yoshio Yamaoka (Department of Environmental and Preventive Medicine, Oita University Faculty of Medicine, Japan)

II. Standardized definition and diagnosis of Barrett's esophagus~Asia, differ from the West? (9 : 25~10 : 25)

Moderators : Takuji Gotoda (Division of Gastroenterology and Hepatology, Nihon University, Japan)

Shiaw-Hooi Ho (Department of Medicine, Faculty of Medicine, University of Malaya, Malaysia)

Commentator : Katsutoshi Tokushige (Department of Medicine and Gastroenterology, Tokyo Women's Medical University, Japan)

APTC2-1 Standardized definition and diagnosis of Barrett's esophagus~Asia, differ from the West? Current status of the definition of Barrett's esophagus
Tomoyuki Koike (Division of Gastroenterology, Tohoku University Graduate School of Medicine, Japan)

APTC2-2 Diagnosis of Barrett's Esophagus in Real-life Practice : The Vietnamese Perspective And Preliminary Results from the Asian Barrett's Consortium Survey 2018
Duc Trong Quach (University of Medicine and Pharmacy at Hochiminh City, Vietnam)

APTC2-3 The definition and histological features of cardiac mucosa in esophagogastric junction
Ken-ichi Mukaisho (Education Center for Medicine and Nursing, Shiga University of Medical Science, Japan)

APTC2-4 Transcriptionally Active Human Papillomavirus Is Strongly Associated with Barrett's Dysplasia and Esophageal Adenocarcinoma
Shan Rajendra (Gastroenterology, Sydney Gastroenterology, Australia)

Break Time (10 : 25~10 : 35)

**III. GI neoplasia in patient with IBD~etiology, screening and diagnosis
(10 : 35~11 : 20)**

Moderators : Tadakazu Hisamatsu (Department of Gastroenterology and Hepatology, Kyorin University School of Medicine, Japan)

Dong-Hoon Yang (Department of Gastroenterology, Asan Medical Center, University of Ulsan College of Medicine, Republic of Korea)

Commentator : Katsuyoshi Matsuoka (Internal Medicine, Toho University Sakura Medical Center, Japan)

APTC3-1 Diagnosis and management of dysplasia in IBD : what should be solved next?
Dong-Hoon Yang (Department of Gastroenterology, Asan Medical Center, University of Ulsan College of Medicine, Republic of Korea)

APTC3-2 Optimization of surveillance colonoscopy for ulcerative colitis as the integrated practice
Kenji Watanabe (Center for Inflammatory Bowel Disease, Division of Internal Medicine, Hyogo College of Medicine, Japan)

APTC3-3 Surgical treatments and outcomes for colitis-associated cancer in inflammatory bowel disease
Motoi Uchino (Hyogo College of Medicine, Japan)

Best Poster Award Ceremony (11 : 20~11 : 30)

Moderator : Akira Andoh (Division of Gastroenterology, Department of Medicine, Shiga University of Medical Science, Japan)

**IV. Emerging interventional EUS in pancreatobiliary diseases
(14 : 20~15 : 20)**

Moderators : Takao Itoi (Department of Gastroenterology and Hepatology, Tokyo Medical University, Japan)

Jong Ho Moon (Gastroenterology, Soonchunhyang University School of Medicine, Republic of Korea)

Commentator : Atsushi Masamune (Division of Gastroenterology, Tohoku University Graduate School of Medicine, Japan)

APTC4-1 EUS-guided biliary drainage : current situation and future perspective
Takuji Iwashita (First Department of Internal Medicine, Gifu University Hospital, Japan)

APTC4-2 Emerging Interventional Endoscopic Ultrasound in Pancreatobiliary disease
Nonthalee Pausawasdi (Division of Gastroenterology, Department of Medicine, Faculty of Medicine Siriraj Hospital, Mahidol University, Thailand)

- APTC4-3 EUS-Guided Pancreatic Duct Drainage For Pancreatic Duct Stricture After Surgery
Ryosuke Tonozuka (Department of Gastroenterology and Hepatology, Tokyo Medical University, Japan)
- APTC4-4 EUS guided pancreatic tumor ablation
Sundeep Lakhtakia (Asian Institute of Gastroenterology, AIG Hospitals, India)

Break Time (15 : 20~15 : 30)

V. Screening program of GI cancer : selection of high risk population and quality assurance (15 : 30~16 : 30)

- Moderators : Hiroshi Kashida (Department of Gastroenterology and Hepatology, Kindai University, Japan)
Ming-Shiang Wu (Internal Medicine, National Taiwan University Hospital, Taiwan)
Commentator : Hiroshi Seno (Department of Gastroenterology and Hepatology, Kyoto University, Japan)

- APTC5-1 The present and near future of screening for gastric cancer
Katsuhiro Mabe (Junpukai Health Maintenance Center, Japan)
- APTC5-2 Colorectal cancer screening : Adding risk profiling to FIT identifies additional advanced neoplastic lesions and enhances the preventive value of screening
Khay-Guan Yeoh (Department of Medicine, Yong Loo Lin School of Medicine, National University of Singapore, Singapore)
- APTC5-3 The present and near future of screening for colorectal cancer
Kazuki Sumiyama (Department of Endoscopy, The Jikei University School of Medicine, Japan)
- APTC5-4 Quality Assurance in Screening GI Endoscopy
Shiaw-Hooi Ho (Department of Medicine, Faculty of Medicine, University of Malaya, Malaysia)

Closing Remarks (16 : 30~16 : 35)

- Lee Yeong Yeh (President, Malaysian Society of Gastroenterology & Hepatology)

Poster Session

- APTC P-1 Devices and outcomes of Interventional EUS for biliary and pancreatic drainage
Seiichiro Fukuhara (Center for Diagnostic and Therapeutic Endoscopy, Keio University School of Medicine, Japan)
- APTC P-2 The outcome of endoscopic screening programs for gastric cancer
Tetsuro Honda (Internal Medicine Department, Nagasaki Harbor Medical Center, Japan)
- APTC P-3 Primary and De novo Anal Transitional Zone Cancer with Ulcerative Colitis
Yuki Horio (Department of Inflammatory Bowel Disease, Division of Surgery, Hyogo College of Medicine, Japan)
- APTC P-4 The development of artificial intelligence algorithm for automatic detection and differential diagnosis of colorectal superficial lesions during routine colonoscopy
Shunsuke Kamba (Department of Endoscopy, The Jikei University School of Medicine, Japan)
- APTC P-5 Linked color imaging (LCI) is useful for improving visibility for superficial Barrett's adenocarcinoma
Masahiro Saito (Department of Gastroenterology, Tohoku University, Japan)
- APTC P-6 Interventional EUS : Our strategy of EUS-PD
Takayoshi Tsuchiya (Department of Gastroenterology and Hepatology, Tokyo Medical University, Japan)
- APTC P-7 Does transmural plastic stenting prevent the recurrence of pancreatic fluid collection after metal stent removal in walled off necrosis with disconnected pancreatic duct syndrome? – Prospective randomized controlled trial with interim analysis
Jahangeer Basha (Asian Institute of Gastroenterology, India)
- APTC P-8 Assessment of Optimal Polyp Description as an Important Quality Indicator in Colonoscopy Reporting : A Single Centre Malaysian Experience
Thevaraajan Jayaraman (Gastroenterology, Faculty of Medicine, Universiti Teknologi MARA (UiTM), Malaysia)
- APTC P-9 Safety, Efficacy, and Long-term follow up of a Single 7 French Plastic Stent for Pancreatic Pseudocyst Drainage : A case-series and systematic literature review
Uayporn Kaosombattawattana (Faculty of Medicine Siriraj Hospital, Mahidol University, Thailand)

- APTC P-10 Colorectal cancer screening : Cost Effectiveness Analysis of the Asia Pacific Colorectal Screening Risk Score in the Singapore Population
Calvin Koh (Gastroenterology and Hepatology, National University Hospital Singapore, Singapore)
- APTC P-11 GI neoplasia in patient with IBD~etiology, screening and diagnosis
Joyce Wing Yan Mak (Medicine and Therapeutics, The Chinese University of Hong Kong, Hong Kong)
- APTC P-12 Esophageal stenosis after ESD
Yong Liu (Department of Endoscopy, National Cancer Center/National Clinical Research Center for Cancer/Cancer Hospital, Chinese Academy of Medical Sciences and Peking Union Medical College, China)
- APTC P-13 Clinical characteristics and prognosis of elderly patients with colorectal cancer undergoing surgical resection
Jae Seung Soh (Department of Internal Medicine, Hallym University Sacred Heart Hospital, Republic of Korea)
- APTC P-14 Patterns of EPIYA motifs in *Helicobacter pylori* cagA gene of Vietnamese patients with gastroduodenal diseases
Thi Minh Thi Ha (Medical Genetics, University of Medicine and Pharmacy, Vietnam)
- APTC P-15 A potential biomarker panel to distinguish gastric cancer from duodenal ulcer : results from GWAS in East Asian-type *Helicobacter pylori*
Vo Phuoc Tuan (Department of Gastroenterology, Cho Ray Hospital, Vietnam)
