

Featured Sessions

I. Educational Symposia

i. Educational Symposium 1

June 28 (Fri.) 8:00-9:30 [Room 1]

Evidence from Clinical Study Groups

ii. Educational Symposium 2

June 29 (Sat.) 10:30-12:00 [Room 1]

Being a Modern Surgeon-scientist

iii. Educational Symposium 3

June 29 (Sat.) 13:10-14:40 [Room 1]

Translational medicine in HBP surgery

II. Harmony between Science and Art in HBP Surgery

i. Addressing Controversial Issues

1. Debate

June 28 (Fri.) 9:30-11:00 [Room 3]

Treatment Strategies for Anatomical Resectable Pancreatic Cancer:
Upfront surgery vs. Neoadjuvant therapy

2. Workshop 1

June 28 (Fri.) 8:00-9:30 [Room 2]

Optimal surgical approach for intrahepatic cholangiocarcinoma

3. Workshop 2

June 28 (Fri.) 8:00-9:30 [Room 3]

Treatment strategies for octogenarian patients with pancreatic cancer

ii. Resectability and Optimal Surgical Strategy

1. Panel Discussion 1

June 28 (Fri.) 9:30-11:00 [Room 4]

Biological Borderline Resectable Pancreatic Cancer in the Era of Preoperative Treatment

2. Panel Discussion 3

June 29 (Sat.) 14:50-16:20 [Room 1]

Definition of the Borderline Resectable for Colorectal Liver Metastases

3. Workshop 4

June 28 (Fri.) 9:30-11:00 [Room 2]

Defining the borderline resectable for hepatocellular carcinoma from the perspective of both tumor factors and liver function

4. Workshop 9

June 29 (Sat.) 10:30-12:00 [Room 3]

Defining borderline resectable (BR) and unresectable (UR) in biliary tract cancer

iii. Minimal Invasive HBP surgery

1. Symposium 3 June 29 (Sat.) 10:30-12:00 [Room 5]

Med- and long-term results of laparoscopic anatomical liver resection

2. Video Workshop 4 June 29 (Sat.) 10:30-12:00 [Room 6]

Standardize minimally invasive surgery for biliary disease

3. Video Workshop 6 June 29 (Sat.) 13:10-14:45 [Room 4]

Standardization of robot-assisted surgery for pancreatic cancer

4. Video Workshop 8 June 29 (Sat.) 14:50-16:20 [Room 3]

Techniques for liver parenchymal transection in robot-assisted liver resection

iv. Highly Advanced Surgery

1. Panel Discussion 2 June 29 (Sat.) 8:50-10:20 [Room 2]

Challenging the Limits of Resection for Perihilar Cholangiocarcinoma: Combined Vascular Resection and Liver Transplantation

2. Workshop 11 June 29 (Sat.) 13:10-14:40 [Room 2]

Challenging the limits of resection for locally advanced liver cancer: Ex-situ, and Ante-situ liver resection

3. Video Workshop 2 June 28 (Fri.) 13:20-14:50 [Room 3]

Knack and pitfalls of liver resection requiring biliary reconstruction and vascular resections

III. Next Generation Programs

i. Next Generation Program 1 June 28 (Fri.) 8:00-9:30 [Room 5]

Liver resection by the surgeons of the next generation

ii. Next Generation Program 2 June 28 (Fri.) 13:20-14:50 [Room 4]

Meet the Japan-Korea U-45 HBP Surgeons; Past, Present, and Future

iii. Next Generation Program 3 June 29 (Sat.) 13:10-14:40 [Room 7]

Empowering Women in HPB Surgery: Expert Perspectives

iv. Next Generation Program 4 June 29 (Sat.) 14:50-16:10 [Room 6]

Pancreatic resection by the surgeons of the next generation
