April 25 (Thu.), 14:00~15:00, Poster Room

Day 2(Fri.)

副腎・後腹膜

Chairs: Katsumi Shigemura (Department of Urology, Department of Medical Engineering, Kobe University)

Nae Takizawa (Department of Urology and Andrology, Kansai Medical University)

PP-01-01 Two Cases of Pheochromocytoma/Paraganglioma Presenting with **Necrosis Triggered by Crisis**

Yusuke Motoki (Kansai Medical University Hospital)

PP-01-02 Clinical review of 19 cases of pheochromocytoma surgery at Sumitomo Hospital

Jiro Sakamoto (Department of Urology, Sumitomo Hospital)

PP-01-03 Comparison of surgical outcomes between robot-assisted and conventional laparoscopic adrenalectomy at Tokyo Women's Medical University Hospital

Sho Nakazato (Tokyo Women's Medical University Hospital)

PP-01-04 Initial Outcome of Robotic-Assisted Adrenalectomy at Our Hospital

Yusuke Imamura (Department of Urology, Chiba University Hospital)

PP-01-05 Initial experiences of robot-assisted laparoscopic adrenalectomy: retrospective comparative study with laparoscopic adrenalectomy

Gensuke Okazaki (Urology, Nagoya City University Hospital)

PP-01-06 Perioperative outcomes of laparoscopic adrenalectomy for metastatic adrenal tumors at a single institution

Nae Takizawa (Department of Urology and Andrology, Kansai Medical University Hospital)

PP-01-07 Clinical consideration of retroperitoneal tumors in Kita-Harima Medical Center

Kenta Sumii (Urology, Kita-Harima Medical Center)

PP-01-08 Laparoscopic resection of retroperitoneal paracaval/paraaortic tumors

Satoru Kira (Department of Urology, University of Yamanashi)

PP-01-09

A case of idiopathic retroperitoneal fibrosis with various complications due to steroid therapy

Satoshi Honda (Oda Training Center of General Practice, Department of General Medicine, Faculty of Medicine, Shimane University / Department of Urology, Oda Municipal Hospital)

般ポスター 02

April 25 (Thu.), 14:00~15:00, Poster Room

腎腫瘍 / 薬物療法①

Chairs: Kenichi Harada (University of Occupational and Environmental Health) Rei Unno (Department of Nephro-urology, Nagoya City University Graduate School of Medical Sciences)

PP-02-01

The retrospective study of upfront cytoreductive nephrectomy for metastatic renal cell carcinoma

Toshihide Horiuchi (Tokyo Women's Medical University, Adachi Medical Center)

PP-02-02

Selective Use of Neoadjuvant Targeted Therapy Associates with Increased Achievement of Partial Nephrectomy for High Complexity Renal Mass in a Solitary Kidney

Worapat Attawettayanon (Division of Urology, Department of Surgery,, Faculty of Medicine, Songklanagarind hospital, Prince of Songkla University / Urology, Glickman Urological and Kidney Institute, Cleveland Clinic, Cleveland, OH)

PP-02-03

Trial of neoadjuvant therapy for locally advanced renal cell carcinoma

Kei Nagase (Department of Urology, Faculty of Medicine, Saga University)

PP-02-04

Outcomes of nivolumab and ipilimumab chemotherapy for metastatic renal cancer and nephrectomy after nivolumab and ipilimumab in our hospital

Kyohei Sugiyama (Department of Urology, Kurashiki Central Hospital)

PP-02-05

Case Series: Cytoreductive Nephrectomy Combined with Nivolumab plus Cabozantinib in Treatment-Naïve Synchronous Metastatic Renal Cell Carcinoma

Jia-Jyun Jhang (Department of Urology, Chnia Medical University Hospital)

PP-02-06

Four cases report of robot-assisted radical nephrectomy for renal cell carcinoma with inferior vena cava tumor thrombus after TKI - ICI combination therapy

Ryousuke Matsushita (Department of Urology, Kagoshima University Medical and Dental Hospital)

ᅻ

PP-02-07 Initial experience of cytoreductive nephrectomy after immunooncology therapy for patients with advanced renal cell carcinoma

Takashi Tsuyukubo (Urology, Iwate Prefectural Ninohe Hospital / Department of Urology, Iwate Medical University)

PP-02-08 Efficacy of deferred cytoreductive nephrectomy after drug therapy for metastatic renal cell carcinoma

Tomoya Shirakawa (Department of Urology, Juntendo University Hospital)

PP-02-09 Initial Use Experience of Pembrolizumab as Postoperative Adjuvant Therapy for Renal Cell Carcinoma

Toshinori Nishikimi (Department of Urology, Japanese Red Cross Aichi Medical Center Nagoya Daini Hospital)

PP-02-10 Prognostic study of patients eligible for postoperative adjuvant therapy for renal cell carcinoma at our hospital

Motokiyo Yoshikawa (Urology, Nara Prefecture General Medical Center)

-般ポスター 03

April 25 (Thu.), 14:00~15:00, Poster Room

尿路上皮腫瘍/診断・マーカー

Chairs: Hiroyuki Nishiyama (Department of Urology, University of Tsukuba) Fumihiko Urabe (Department of Urology, The Jikei University School of Medicine)

PP-03-01 Membranous expression of HEG1 is associated with a good prognosis in patients with bladder cancer

Kohei Mori (Department of Urology, Kitasato University School of Medicine)

PP-03-02 Prognostic value of geriatric nutritional risk index in radical cystectomy

Moto Tokunaga (Okayama Medical Center)

PP-03-03 Prognostic impact of C-reactive protein levels in muscle-invasive bladder cancer patients treated with neoadjuvant chemotherapy and radical cystectomy

Koki Mitani (Saitama Cancer Center)

PP-03-04 Development of preoperative risk stratification models predicting prognosis after radical cystectomy for bladder cancer

Hiroshi Yamane (Division of Urology, Department of Surgery, Faculty of Medicine, Tottori University)

PP-03-05

Preoperative systemic immune-inflammatory index (SII) may be a prognostic factor after radical surgery for bladder cancer

Shintaro Mori (Department of Urology and Renal Transplantation, Nagasaki University Hospital)

PP-03-06

Preoperative endothelial activation stress index (EASIX) is a useful prognostic factor after radical surgery for bladder cancer

Shintaro Mori (Department of Urology and Renal Transplantation, Nagasaki University Hospital)

PP-03-07

Monitoring circulating cellular gene levels in patients with metastatic bladder cancer

Ryota Ogura (Urology, Kyoto Prefectural University of Medicine)

PP-03-08

Carcinoma in situ (CIS) detected in random biopsies can predict poor recurrence-free survival (RFS) in bladder cancer

Kaoru Murakami (Department of Urology, Kyoto University Graduate School of Medicine)

PP-03-09

Investigation of the correlation between human polyomaviruses infection with the development of upper urinary tract urothelial carcinoma (UTUC)

Jeong Uk Jang (Department of Urology, Ditmanson Medical Foundation Chiayi Christian Hospital, Chia-Yi, Taiwan)

PP-03-10

The benefit of continuous saline bladder irrigation during and after laparoscopic nephroureterectomy for upper urinary tract cancer

Sota Inaba (Japanese Red Cross Ise Hospital)

般ポスター 04

April 25 (Thu.), 14:00~15:00, Poster Room

尿路上皮腫瘍 / 薬物療法①

Chairs: Ichiro Ikeda (Department of Urology, Yokohama Minami Kyosai Hospital) Ayako Masunaga (JSDF Sapporo Hospital)

PP-04-01

The experience of enfortumab vedotin for pembrolizumab or avelumab resistant advanced urothelial carcinoma

Go Kaneko (Department of Uro-Oncology, Saitama Medical University International Medical Center)

PP-04-02

Efficacy and safety of enfortumab vedotin for unresectable urothelial carcinoma: initial experience at Odawara Municipal Hospital

Masanobu Yamazaki (Odawara Municipal Hospital)

Clinical outcomes of enfortumab vedotin therapy in patients with

metastatic urothelial carcinoma Masaomi Ikeda (Kitasato University School of Medicine) Clinical Outcome of Enfortumab Vedotin for Advanced Urothelial PP-04-04 Carcinoma Noboru Shibasaki (Urology, Kobe City Medical Center General Hospital) PP-04-05 Enfortumab Vedotin use for advanced urothelial carcinoma in Hitachi General Hospital Satoshi Kondo (Hitachi General Hospital) PP-04-06 Initial experience with Enfortumab Vedotin therapy for urothelial cancer Atsuro Sawada (Department of Urology, Miyazaki University) PP-04-07 Initial experience with enfoltumab vedotin therapy for urothelial carcinoma at Saiseikai Kawaguchi General Hospital Tetstsushi Sakamoto (Saiseikai Kawaguchi General Hospital) PP-04-08 Initial experience of Enfortumab vedotin in advanced urothelial carcinoma Atsushi Okato (Urology, Teikyo University Chiba Medical Center)

PP-04-03

PP-04-09 Experience with Enfortumab Vedotin for urothelial carcinoma

Junji Yatsuda (Department of Urology, Faculty of Life Sciences Kumamoto

PP-04-10 Initial experience with Enfortumab Vedotin for advanced urothelial carcinoma at our hospital

Takehiro Nakashima (Yokohama Sakae Kyosai Hospital)

PP-04-11 Initial Experience of Urothelial Carcinoma Treatment with Enfortumab Vedotin at Our Hospital

Keisuke Funaiima (South Miyagi Medical Center)

般ポスター 05

April 25 (Thu.), 14:00~15:00, Poster Room

前立腺腫瘍 / 放射線①

Chairs: Kazuyuki Numakura (Akita University Graduate School of Medicine, Department of Urology) Miki Naito (Department of Urology, Hiroshima University)

PP-05-01

Investigation of treatment outcome and effect of SpaceOAR hydrogel on urination, defecation and sexual function in prostate cancer brachytherapy

Masafumi Tsuruta (Kansai Electric Power Hospital)

PP-05-02

Brachytherapy at Kindai University Hospital

Takafumi Minami (Department of Urology, Kindai University Faculty of Medicine)

PP-05-03

Investigation of the efficacy of low-dose-rate brachytherapy for localized prostate cancer

Renato Naito (Department of Integrative Cancer Therapy and Urology, Kanazawa University Graduate School of Medicical Science)

PP-05-04

Comparison of the effects of brachytherapy alone and trimodality therapy on satisfaction with urination and defecation

Yoshimasa Kurimura (Hiroshima Prefectural Hospital)

PP-05-05

Comparison of oncological outcomes between whole gland low dose rate salvage brachytherapy and focal low dose rate salvage brachytherapy at our hospital

Takahiro Nakamoto (Urology and Andrology, Kansai Medical University)

PP-05-06

Treatment results of high-dose-rate brachytherapy and external beam radiation therapy with long-term androgen deprivation therapy for metastatic prostate cancer

Hirotaka Suzuki (The Jikei University School of Medicine)

PP-05-07

The impact of adequate local radiation dose on oncological outcomes in localized prostate cancer patients treated with lowdose rate brachytherapy

Yuki Enei (Department of Urology, The Jikei University School of Medicine / Department of Urology, JR Tokyo General Hospital)

 $\frac{1}{\omega}$

PP-05-08 Prostate-specific antigen levels following brachytherapy impact late biochemical recurrence in Japanese patients with localized prostate cancer

Yoshiteru Ueno (Urology, Tokushima University Hospital)

PP-05-09

Therapeutic response to radium-223 using bone scan index among castration-resistant prostate cancer patients with bone metastatic at a single hospital

Shinsuke Kurokawa (Department of Urology, Sano Kosei General Hospital)

PP-05-10

What is the factor related to completion of six courses of Ra223?

Eiji Matsubara (Showa University Northern Yokohama Hospital)

PP-05-11

The outcome of each post-treatment for patients with prostate cancer diagnosed at our hospital

Takeshi Kashiwabara (Department of Urology, Saku Central Hospital)

一般ポスター 06

April 25 (Thu.), 14:00~15:00, Poster Room

前立腺腫瘍/薬物療法①

Chairs: Masaki Shiota (Department of Urology, Kyushu University)

Mariko Tabata (Department of Urology, Tokyo Metropolitan Bokutoh Hospital)

PP-06-01

Usage experience of olaparib for metastatic castration-resistant prostate cancer in our hospital

Yutaro Arai (Chiba Cancer Center)

PP-06-02

Treatment experience of Olaparib for metastatic castration-resistant prostate cancer harboring BRCA mutations at Fukuoka University Hospital

Hiroshi Matsuzaki (Department of Urology, Fukuoka University, Faculty of Medicine)

PP-06-03

Efficacy and safety profile of olaparib for patients with metastatic castration-resistant prostate cancer

Keigo Sato (Department of Urology, The Cancer Institute Hospital of Japanese Foundation for Cancer Research)

PP-06-04

Initial experience with olaparib treatment for BRCA-positive prostate cancer at our institution

Yusuke Hama (Department of Urology, Kurashiki Central Hospital)

PP-06-05

Day 2(Fri.)

Masahiro Yanase (Sunagawa City Medical Center)

PP-06-06 The outcome of ARAT therapies for non-metastatic castration resistant prostate cancer

Kentaro Yoshihara (Urology, The Jikei University Katsushika Medical Center)

Experience of Darolutamide treatment for MOCRPC at our hospital

PP-06-07 Experience of radium-223 for castration-resistant prostate cancer with bone metastasis in our hospital

Takeshi Sato (Department of Urology, University of Yamanashi)

PP-06-08 The relationship between the primary dose of apalutamide and skin-related AEs

Takevuki Watanabe (Urology, Kyoto Medical Center)

Verification of the Relationship Between Apalutamide(APA) Dosage, PP-06-09 Incidence of Rash, and Therapeutic Efficacy

Shin Sato (Osaki Citizen Hospital)

・般ポスター 07

April 25 (Thu.), 14:00~15:00, Poster Room

ロボット支援手術 / 前立腺腫瘍①

Chairs: Yutaka Enomoto (Department of Urology, Mitsui Memorial Hospital) Nobuyo Morita (Department of Urology, Kanazawa Medical University)

PP-07-01 Does extended pelvic lymph node dissection (eLND) have therapeutic benefits for NCCN intermediate- to high-risk prostate cancer?

Noriyoshi Miura (Department of Urology, Ehime University)

PP-07-02 Analysis of biochemical recurrence factors in patients with positive surgical margins after robotic-assisted radical prostatectomy

> Kenta Fujiyama (Urology, Hiroshima City North Medical Center Asa Citizens Hospital)

PP-07-03 Factors influencing postoperative biochemical recurrence in robot assisted radical prostatectomy

Shota Nakagawa (Shiga University of Medical Science)

PP-07-04 Evaluation of treatment outcomes of robot-assisted radical prostatectomy and external beam radiotherapy for prostate cancer including Gleason pattern 5

Takeshi Kashima (Tokyo Medical University Hospital)

Room 1

ᅻ

В

PP-07-05 Upgrading to pT3 in robot-assisted radical prostatectomy Yoshihiro Nakagami (Department of Urology, Showa University)

Efficacy of neoadjuvant hormonal therapy followed by PP-07-06 prostatectomy in locally advanced prostate cancer

Akihiro Maeda (Saga University School of Medicine)

PP-07-07 Initial results of robot-assisted radical prostatectomy (RARP) extended lymph node dissection in cross-disciplinary trial of pelvic lymph node dissection

Shinichi Sakamoto (Urology, Chiba University Graduate School of Medicine)

PP-07-08 Evaluation of ineffective salvage radiation therapy cases for biochemical recurrence after robot-assisted radical prostatectomy

Shinya Abe (Urology, Kyoto City Hospital)

PP-07-09 Review of biochemical recurrence cases after robot-assisted laparoscopic prostatectomy in our hospital

Naoto Takaoka (Department of Urology, Tenri Hospital)

PP-07-10 Clinical study of Pelvic lymph node dissection of RARP performed in our hospital

Junichiro Hirata (Division of Urology, Department of Surgery Related, Kobe University Graduate School of Medicine)

般ポスター 08

April 25 (Thu.), 14:00~15:00, Poster Room

尿路結石①

Chairs: Takahiro Yoneyama (Department of Urology, Hirosaki University Graduate School of Medicine) Hayahito Nomi (Osaka Medical and Pharmaceutical University)

PP-08-01 Treatment outcome on urolithiasis with urinary tract malformation at Osaka Rosai Hospital

Yuichi Tsujimoto (Urology, Osaka Rosai Hospital)

PP-08-02 The clinical review of upper urine tract stone indicated for emergent surgical treatment

Kenichirou Kobayashi (Division of Urology, Akishima Hospital)

PP-08-03 A study of the usefulness of stentless TUL for ureteral stones with obstructive pyelonephritis

Kosuke Takahashi (Urology, Hyogo Prefectural Amagasaki General Medical Center)

| PP-08-04 | Ureteral Stent and Inner Diameter Expansion in Difficult Ureter |
|----------|--|
| | Takafumi Kawazu (Saka Urological Hospital) |
| PP-08-05 | The safety and efficacy of transurethral lithotripsy in elderly patients with upper urinary tract stone |
| | Kazuki Taniguchi (Gifu Prefectural General Medical Center) |
| PP-08-06 | Flexible ureteroscopic holmium laser lithotripsy for renal calculi Kuniyasu Muraoka (Department of Urology, Tottori Prefectural Central Hospital) |
| PP-08-07 | Clinical study of cases of ureteroscopic lithotripsy in our hospital Risa Kubota (Urology, Okayama Medical Center) |
| PP-08-08 | Consideration of TUL treatment at our hospital |
| | Atsushi Onishi (Akashi City Hospital) |
| PP-08-09 | Evaluating the accuracy of intrarenal pressure monitoring with LithoVue Elite; in porcine kidney model |
| | Takaaki Inoue (Urology, Hara Genitourinary Hospital / Urology, Kobe University) |
| PP-08-10 | Rare reported case of Percutaneous Nephrolithotomy in a transplanted kidney |
| | Desmond Chung Wei Ling (Urology, University Malaya Medical Centre) |
| PP-08-11 | Role of Laparoscopic Retroperitoneal Ureterolithotomy-still relevant |

١t in developing country in era of endourology

Sanjay Chaube (Div.of Minimally Invasive Surgery, St. Jude's Hospital)
